

WHAT HAPPENS DURING CONSTRUCTION ... WHAT CAN I EXPECT?

Construction phasing and methods are focused on preserving the quality of life for citizens along the corridors. Access to homes and businesses, street operations, and safety measures are paramount to minimizing disruption and discomfort.

GOALS FOR MAINTAINING OPERATIONS DURING CONSTRUCTION

-  Pedestrians will be able to walk in their neighborhoods.
-  No road will be completely closed to vehicles.
-  Parking and bicycle lanes will be closed.
-  Detours will be clearly communicated to the public.
-  School pick up and drop offs will be maintained.
School bus routes will be supported.
-  Detours will be provided to maintain access to trails.
-  Construction will be performed in phases to allow for completed construction areas to reopen to the community.

CONSTRUCTION ON COMMONWEALTH AVE
Two-way traffic will continue during construction; however parking and bike lanes will be closed.

CONSTRUCTION ON GLEBE RD
The road will change to one-way traffic during construction and parking lanes will be closed.

CONSTRUCTION ON MONTROSE AVE
A reversible lane will be in effect during construction and parking lanes will be closed.

COMMONWEALTH, ASHBY, GLEBE FLOOD MITIGATION PROJECT
