Ground Rules for Tonight's Virtual Discussion

- Respect and civility for all participants
- Tackle problems, not people
- Everyone participates, no one dominates
- Explore interests, not positions
- One person speaks at a time
- Agree on Decision Points by Consensus
- Use the Zoom tools such as hand-raising and the chat function for questions

Draft Taylor Run Goals

- Minimal intervention strategies to achieve our stream improvement goal
- Protect public and worker safety
- Protect biological diversity
- Preserve existing tree canopy
- Address neighborhood and private property impacts
- Protect infrastructure services
- Minimize excessive erosion, sediment flow, and land loss
- Promote cost effectiveness
