

ORDINANCE NO. 5481

AN ORDINANCE to amend and reordain the Master Plan of the City of Alexandria, Virginia, by adopting and incorporating therein the amendment heretofore approved by city council to the Braddock Road Metro Station Small Area Plan chapter of such master plan as Master Plan Amendment No. 2022-00006 and no other amendments, and to repeal all provisions of the said master plan as may be inconsistent with such amendment.

WHEREAS, the City Council of the City of Alexandria finds and determines that:

1. In Master Plan Amendment No. 2022-00006, the Planning Commission, having found that the public necessity, convenience, general welfare and good zoning practice so require, recommended approval to the City Council on February 7, 2023 of an amendment to the Braddock Road Metro Station Small Area Plan Chapter of the Master Plan of the City of Alexandria to update the Development and Land Use tables to update the square footage, recommended zoning, and preferred land uses, which recommendation was approved by the City Council at public hearing on February 25, 2023;
2. The said amendment has heretofore been approved by the planning commission and city council after full opportunity for comment and public hearing.
3. All requirements of law precedent to the adoption of this ordinance have been complied with; now, therefore,

THE CITY COUNCIL OF ALEXANDRIA HEREBY ORDAINS:

Section 1. That the Braddock Road Metro Station Small Area Plan Chapter of the Master Plan of the City of Alexandria, be, and the same hereby is, amended by updating the Development and Land Use tables to update the square footage, recommended zoning, and preferred land uses, attached hereto and incorporated fully herein by reference, as a new chapter of the Master Plan of the City of Alexandria, Virginia.

Section 2. That the director of planning and zoning be, and hereby is, directed to record the foregoing master plan amendment as part of the Master Plan of the City of Alexandria, Virginia.

Section 3. That all provisions of the Master Plan of the City of Alexandria, Virginia, as may be inconsistent with the provisions of this ordinance be, and same hereby are, repealed.

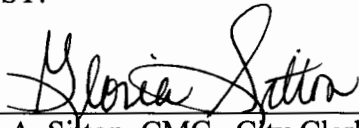

Section 4. That the Master Plan of the City of Alexandria, as amended by this ordinance, be, and the same hereby is, reordained as the Master Plan of the City of Alexandria, Virginia.

Section 5. That the city clerk shall transmit a duly certified copy of this ordinance to the Clerk of the Circuit Court of the City of Alexandria, Virginia, and that the said Clerk of the Circuit Court shall file same among the court records.

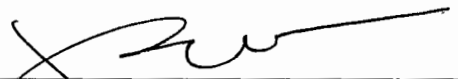

Section 6. That this ordinance shall become effective upon the date and at the time of its final passage.

NOTES

- Current Allowable Floor-Area-Ratio (FAR), Height and Allowable Development calculations based on SUP.
- An overall FAR of 2.5 is shown, since the parcels are part of the overall Northern Gateway CDD Site along with the Jaguar development site
- Conceptual analysis has shown that the current maximum FAR of 0.75 is not enough to allow for mixed-income housing redevelopment to occur on the public housing sites. A refined FAR recommendations will be developed during the Braddock East planning process.
- Based on FAR of 3.0 and a 97,000 sf parcel size, net of circulation space for buses, taxis and other vehicles
- According to Real Estate Assessment Information, based on a 175,000 sf site area net of Payne Street extension.
- 1.3 acre park proposed leaving 30,000 sf site area
- Total modeled for traffic impact analysis, should development occur other than the park.
- 282,838 SF approved with DSUP.
- Height and density of these sites will be determined during the Braddock East planning process. Numbers shown here are for the purpose of traffic impact analysis only.
- Does not include bonus density above 3.0

(1) Based on a 175,000 sf site area net of Payne Street extension for consistency with the BMNP Land Use and Development Tables

(2) Appropriate zoning to be determined through the DSUP and rezoning process subject to the height and density limitations identified in the Development Framework.

Amended 6/19/21, Ord. 5353

Amended DATE, Ord. XXXX

**Hotel.** The BMNP proposes a hotel use for the western edge of the Adkins block that is currently occupied by the single-family properties between Adkins and West Street. This Plan continues to recommend this as an appropriate use in this location.

**Community facilities.** The Advisory Group meetings and the Design Charrette identified a need to include community facilities/supportive services within the new mixed-income community, such as job training, childcare and community function rooms. ARHA considers that sufficient facilities are available at the new Charles Houston Recreation Center and that it is a matter of ensuring that the events and activities are programmed to take into account the needs of ARHA residents as part of the overall community. The City supports this approach and is committed to working with ARHA to achieve a better integration of the Recreation Center program with the needs of public housing residents. While the provision of new facilities as part of any redevelopment plan is encouraged, the location and programming of such facilities will be determined by an analysis of resident needs and should complement the Recreation Center program.

**OPEN SPACE**

A variety of open spaces should be provided to meet the needs of the new residents of the proposed mixed-income communities. Public housing has a higher than average number of children per household. A range of open space is required to provide for the recreational needs of young children and teenagers. These areas should be designed and located to allow effective supervision and surveillance from surrounding streets, residential properties and/or community and retail facilities. Each residential block should have safe and convenient access to play spaces for young children.

Open space should include a wide range of spaces that meet the community's needs, especially those of young children.

**Table 5: Development Framework**

Site	EXISTING PARCELS						PROPOSED DEVELOPMENT			
	Year of Last Sale	Existing Development	Existing Housing Units	Current Allowable Feet	Current Allowable Height	Current Allowable Development	Prop. Total Development	Percent Change of Housing	Year Built	Min. Height

## IMPLICATIONS FOR THE FUTURE OF BRADDOCK EAST

Taking into account the recommended height limitations, open space requirements and other design considerations, the resulting densities, expressed as a Floor Space Ratio (FAR), are up to 1.75 on James Bland, up to 2.5 on the Adkins site, up to 2.0 on the Madden site and up to 1.5 on Ramsey. This is generally consistent with the density recommendations in the BMNP for the key redevelopment sites at the Metro (FAR 3.0) and Northern Gateway (FAR 2.5).

These FARs are the maximum that is likely to be supportable on these sites. The ranges identified in Table 5 are indicative of the wide variety of potential scenarios that could be viable on these sites.

In the event that density considerations and market conditions at the time of redevelopment indicate that it is unlikely that all of the public housing can be relocated on the sites within the Plan area then, under Resolution 830, it will be necessary to replace some of the public housing units elsewhere in the City.

The retention of existing public housing in the Braddock East area will be contingent upon:

- constraints on the overall density and height on each individual site;
- open space, parking and urban design requirements;
- the market conditions that prevail at the time of redevelopment;
- the public funding available at the time of redevelopment ; and
- the availability of secured sites elsewhere in the City to accommodate the replacement units.

This has been demonstrated by both the Chatham Square and James Bland redevelopments. Approximately one-third to one-half of the existing public housing units on these sites were/are to be relocated off-sited. This is due to constraints on the development of these sites, such as the need for open space, the limitation on heights and the need for compatibility with adjacent neighborhoods, as well as the available funding and market conditions, which are different in each case.

\*Except that one multi-family building may be increased to 60 feet in the northern multi-family block adjacent to Patrick Street.
