Parks and Recreation Commission
September 15, 2022
2 King Street

- Staff last met with the Parks and Recreation Commission on June 16, 2022 to discuss the future use of City-owned property at 2 King Street.

- City Council declared the property surplus at the Legislative Meeting on June 28, 2022 and asked that staff further engage the community to solicit input into future options and uses of the property both private and public to help inform a possible RFP for the sale and redevelopment of the property.

- Staff will return to Council with a summary of the input received from the community and Council will determine whether to move forward with the issuance of an RFP.

- Note: Because Council declared the property surplus **does not** mean that the property must be sold.
