# Community Poll Demographic Data Summary

1. Nearly 19% of Alexandria's population lives within AlexWest. The 970 poll responses the City received account for about 3% of the area's population.
2. AlexWest residents report that they speak over 20 different languages.
3. One-third of respondents do not use English at home.
4. About 7 out of 10 polls were submitted using the English version.
5. School age individuals were the most underrepresented & retirement age homeowners were the most overrepresented when compared to the entire community.
6. Nearly 4 of every 5 polls was submitted from a working age adult.
7. The Hispanic & Latino community was underrepresented in poll responses (half the response level compared to the area's percentage share).
