To Whom It May Concern:

The City of Alexandria has contracted Fillipo Construction to replace the Holmes Run Trail bridge at 4600 Duke Street & Jordan Street.

The scope of work will include replacing the bridge, stabilization of the outfall stream bank and minor adjustments to the existing trail.

Construction is scheduled to begin on February 20, 2023 and anticipated to require up to 40 weeks to complete. This schedule is contingent on weather conditions. General construction activities are permitted to occur Monday through Friday, 7:00 AM to 6:00 PM, and Saturday, 9:00 AM to 6:00 PM.

Trail users will be required to use the detour routes shown in the maps attached with this notice letter and follow appropriate warning signage.

Completion of this project will require temporary impacts to certain curbside parking spaces adjacent to the project site in order to create access to the site.

Thank you for your patience. Additional information about the Holmes Run Trail Repair project will be posted to the project webpage: <https://www.alexandriava.gov/capital-projects/project/holmes-run-trail-repairs>

Should you have any questions or concerns, please contact me at ayoub.hassen@alexandriava.gov or 703.746.4635.

Sincerely,

Ayoub Hassen P.E, PMP
Technical Project Manager
