RE: Local Total Maximum Daily Load (TMDL) Action Plan Review, City of Alexandria, VAR040057

Dear Mr. Maines:

The Virginia Department of Environmental Quality (DEQ) has performed a review of the City of Alexandria's Bacteria TMDL Action Plan and Tidal Potomac PCB TMDL Action Plan (TMDL Action Plan), dated April 24, 2025. This review evaluated the TMDL Action Plan(s) for completeness, technical accuracy, and whether any further information was necessary to demonstrate that best management practices (BMPs) designed to reduce pollutant discharges are implemented in a manner that is consistent with the assumptions and requirements of the applicable total maximum daily load, as specified in Part II.B. of the General Virginia Pollutant Discharge Elimination System Permit for Discharges of Stormwater from Small Municipal Separate Storm Sewer Systems (MS4 General Permit).

Based on this review, the TMDL Action Plan(s) satisfied the requirements specified in Part II.B. of the MS4 General Permit, and no further information is requested at this time. Please continue to update the TMDL Action Plan(s) as needed. Please note that the review of the TMDL Action Plan(s) is not meant to be a comprehensive review of the MS4 program or TMDL Action Plan implementation in the MS4 General Permit.

Thank you for your continued efforts in implementing the MS4 General Permit and the TMDL Action Plan(s). If you have any questions or require any assistance, please contact Amy Hagerdon at 571-866 6086 or [Amy.Hagerdon@deq.virginia.gov](mailto:Amy.Hagerdon@deq.virginia.gov).

Sincerely,

Rebecca Johnson, Water Compliance Manager
