

**Mental Wellness Vision Statement Voting - February 5, 2026**

In October 2025, the Mental Wellness coalition completed a visioning activity to consider what a community looks like where everyone has the opportunity to have their best mental health and wellness. These results were summarized into themes. In November 2025, results and themes were used by coalition members to brainstorm potential coalition vision statements. The top two options were put up for a public vote that took place December 2025 – January 2026. Results are posted below.
