

Proposed Project: RSTP – 5B01(602) / VDOT Project #U000-100-887, C501, P101, R201 (UPC #115530) / City of Alexandria #23034

Access Improvements to the Landmark Transit Hub Project

Notice of Willingness to Hold a Public Meeting

In cooperation with the Virginia Department of Transportation (VDOT) and the Federal Highway Administration (FHWA), the City of Alexandria is proposing sidewalk improvements along North Van Dorn Street from just south of Duke Street, northward to Holmes Run Parkway. The purpose of this project is to enhance connections to the forthcoming West End Transit center at the former Landmark Mall site, improve pedestrian and cyclist safety, and increase access for all users traveling through this critical corridor.

The proposed project includes:

- Pedestrian safety improvements, including new crosswalks, Americans with Disabilities Act (ADA)-compliant curb ramps, pedestrian signals, pedestrian scale lighting and a seven-foot sidewalk along the east side of North Van Dorn Street;
- Retrofitting the northbound lanes on the N Van Dorn Street Bridge (over Duke Street) to provide a wide sidewalk and safety fencing over the bridge; and
- Continuation of the twelve-foot asphalt trail, with required retaining wall, from Landmark Street north towards Holmes Run Parkway along the west side of N Van Dorn Street.

The project is funded by a Virginia Department of Transportation (VDOT) Smart Scale grant.

The plans are available for review on the project website or in-person at 2331 Mill Road, Suite 302. If your questions or concerns cannot be satisfied through discussions with staff, the City is willing to hold a public hearing. **Requests must be received by Monday, June 15, 2026.**

For more information, contact City Project Manager Demand Frazier, at Demand.Frazier@alexandriava.gov or 703.746.4632. Hearing impaired residents of Virginia may dial 711 for Virginia Relay.
