My name is Jihad Shakur of Georgia.

We demand for the Alexandria Police department as well as the criminal law system investigate and possibly convict the police supervisor that showed up on the scene.

It was his poor leadership that created the entire crisis by his unnecessary and insensitive directives to his fellow officers.

Had the supervisor not instructed the officers to jail the private citizen they are hired to protect and serve, a loving family would still be able to celebrate life with their loved one.

Instead of assisting their fellow Alexandria citizen with the medical treatment and respect he deserves, the supervisor took it upon himself to penalize his fellow citizen and provide a service that was counterproductive to everyone involved.

We do not need officers in positions of power making poor decisions that destroy and divide the working relationship of the Alexandria police and the citizens they are hired to protect and serve.

Poor decisions and total insensitivity is what breeds tension and contempt between both parties. If the supervisor is left in this prestigious position of authority, all it will do is lead to more future incidents that jeopardize the officers as well as the private citizens of that city. The family is owed due process and justice for their tragic heartache and misapplication of authority.

I am writing in regards to my friend Dante's brother that was killed in police custody in this city and state. I have known him for 10+ years, and to say the least he is a very reserved and contains his emotions better than I have known anyone. He is hurt. And he showed that when he had the chance to speak about his brother this past Tuesday. The biggest issue in this situation is that these "cops" get to still be free with no REAL consequences for their actions. I wish no ill will against them, however, I would like them to be held to the same accountability that any of us civilians would be too. Just do what's right.

Thank you.
