| Incidents resulting in structures, vehicles, or outside fires | 741 | 51% |
| Incidents dispatched for medical or rescue reasons | 21,012 | 2% |
| Incidents dispatched for fire or smoke | 4,435 | 1% |
| Number of patients transported by AFD units | 11,178 | -2% |

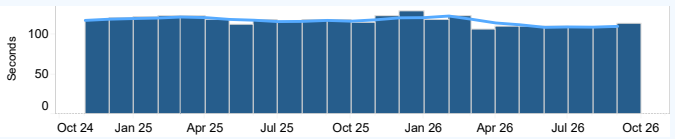

Trend

## Intervention

| Indicator | Most Recent 12 Months | Change From Previous 12 Months |
|---|---|---|
| Average Emergency Call Processing Time | 1:54 | -4% |

Trend

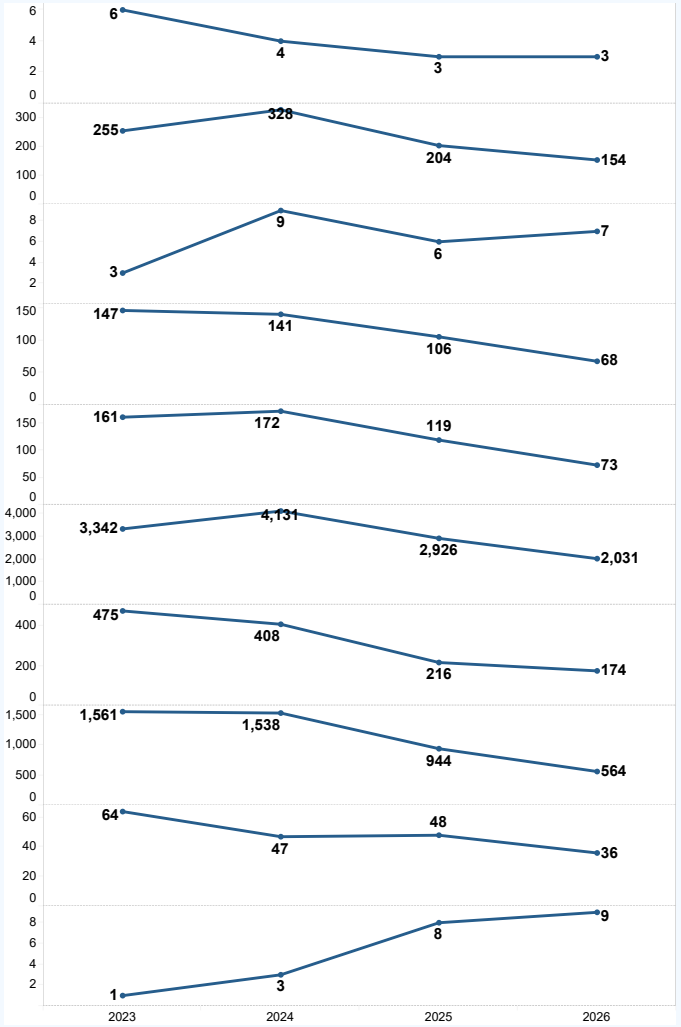

The priority level of APD and Fire/EMS that are classified as emergency dispatches changed so the data captured under the previous definition has been removed and the earliest data currently available is from April 2025. Reporting systems and standard changes have required a change in the incidents resulting in false calls and malfunctioning detection & suppression systems indicator that has made historic data uncomparable.
