City of Alexandria Development Fact Sheet
Old Town North

Tide Lock (Transpotomac Plaza)
DSUP2019-0014

PROJECT DESCRIPTION
An applicant proposes through a rezoning from OCM(50) to CRMU-X and a Development Special Use Permit (DSUP) to rehabilitate and convert the three existing office buildings at 1033, 1055 and 1111 N. Fairfax Street and convert to multifamily buildings with a ground-floor arts and cultural anchor and construct a two-story building with retail and an arts and cultural anchor on an existing plaza adjacent to N. Fairfax Street.

- Proposal includes a total of 232 rental and condominium units, 7,756 square feet of retail and a 5,000 square foot arts and cultural anchor.
- Applicant is requesting density bonuses through the provision of affordable housing (including approx. 17 on-site affordable units) and for providing an arts and cultural anchor within the Old Town North Arts and Cultural District.

The site is bounded by two adjacent office buildings to the north and south that comprise the remainder of the Transpotomac Plaza development, a mix of office and townhouses to the west and the Mt. Vernon Trail to the east.

KEY ISSUES
Key issues that will be considered in the review of the proposal include:

- Adaptive reuse of existing office buildings
- Building massing, form and architectural quality.
- Site design, including pedestrian connectivity through the site, integration with the remainder of the office development and relation to N. Fairfax Street.
- The application of the affordable housing and arts and cultural density bonuses, including the integration of an engaging arts and cultural anchor tenant and facility.
