Family Reunification Workshop for Returning Citizens

How can you best support your family member that will be re-entering the community from prison or jail?

Please join us if you have a loved one who is preparing to return or has returned to the community after incarceration. Family members and significant others are encouraged to attend in order to participate in conversations that include:

- What role does Probation play?
- What resources are available to my loved one?
- How can families support their loved one's efforts to re-integrate into the community?
