PROJECT DESCRIPTION & JUSTIFICATION

Neighborhood Pool Demolition/Conversion projects will convert the City's aging neighborhood aquatic facilities that are currently closed or decommissioned into other recreational features. In 2012, RPCA commissioned an Aquatic Facilities Study to create a plan for improving the City's aging aquatic facilities. The study recommended significant changes to the facilities such as Colasanto and Nannie J. Lee Pools which have been closed since 2009. Projects will demolish the existing pools that are closed to the community and convert them into facilities such as Spray Parks, decks or other recreational facilities as identified in the Park and Recreational Needs Assessments. This project will eliminate the safety hazards associated with closed, unstaffed pools, and will benefit a broad range of City residents and visitors. Spray parks can be operated similar to the successful interactive fountain at Potomac Yard Park.

Aquatics is consistently identified as an unmet need for residents in Alexandria in the Park and Recreation Needs Assessments. In FY 2020, the Colasanto Pool is anticipated to be designed. In FY 2022, the Colasanto Pool will be demolished and the Nannie J. Lee Pool is anticipated to be decked over and a study will be conducted for future improvement.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Neighborhood Parks Improvement Plan (2016); Park and Recreation Needs Assessment (2013 and 2015); Aquatics Facilities Study (2012); Recreation, Parks and Cultural Activities Strategic Plan(2018-2023); Recreation, Parks and Cultural Activities Strategic Plan (2018)

ADDITIONAL OPERATING IMPACTS

There will be minimal operating impacts from the demolition of the two pools. The conversion of Colasanto is anticipated to cost approximately \$38,000 annually to operate.

PROJECT DESCRIPTION & JUSTIFICATION

In 2012, RPCA commissioned an Aquatic Facilities Study to create a plan for improving the City's aging aquatic facilities. The study recommends renovating the existing outdoor pool in Old Town. This project will provide for a renovated aquatic facility that will enhance the user experience at the Old Town Pool. It will include a renovated bath house, and an updated 8 lane 25-yard lap pool. Pending the outcome of the public design process, the project may provide new amenities such as zero depth entry for children's area, and new aquatic play structures. The community benefit from this project will be broad as it provides a facility for all age groups and abilities.

Funding for design is planned in FY 2023 and construction is planned in FY 2024.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessment (2013, 2015, and 2017); Aquatic Facilities Study (2012); Recreation, Parks and Cultural Activities Strategic Plan(2018-2023); Old Town Pool Assessment (2016).

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

PROJECT DESCRIPTION & JUSTIFICATION

This project includes annual funding for capital maintenance of all indoor and outdoor public swimming pool shells, structures, mechanical and filtration systems, decks, bathhouses, components required by the Aquatics Health Code, and contributing amenities. Annually, public swimming pools are inspected by the Alexandria Health Department for code compliance and required repairs are scheduled.

In FY 2012, the City completed an Aquatic Facilities Study that provided additional information on the scope and priority of maintenance requirements and types of facilities needed in the future. In August 2016 an updated study and report was completed for Old Town Pool. A list of projects to be completed in FY 2020 – 2022 can be found on the next page. However, due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, projects are subject to change.

Maintaining public pools supports City objectives to meet resident expectations and directly supports and enhances well-being, success, and achievement of children, youth and families. City pools also provide quality play spaces to support active lifestyles and acquire life-saving learn to swim skills. In addition, annual maintenance funding maintains the level of service currently provided to pool users, while maintaining the value of City pools' capital infrastructure.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessment (2011 and 2013); Outdoor Pools Assessment (2002); Open Space Master Plan (2003, Updated 2017); Aquatics Facilities Study (2012); Old Town Pool Assessment (2016); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023)

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

CHANGES FROM PRIOR YEAR CIP

FY 2020 funding reduced by \$1 million to reflect available funding not yet expended.

PROJECT DESCRIPTION & JUSTIFICATION

This is an on-going project, which provides for the purchase of and improvements to land for City open space and related facilities. Funding allows the City to proceed with the acquisition of additional open space in accordance with the City's Open Space Master Plan, City Council's Strategic Plan, and in conjunction with the implementation of newly and soon to be approved small area plans throughout the City. A 2013 Parks and Recreation Needs Assessment Survey indicated 86% of Alexandrians indicated that it is "very important" or "important" to "purchase land to preserve natural areas, wildlife" and 79% indicate that it is "very important" or "important" to "purchase land to develop passive use neighborhood parks." In 2003, City Council approved a plan (Strategic Master Plan for Open Space, Parks and Recreation) which identified the need to add 100 acres of open space by calendar year 2013. This plan was updated in 2017. Per the 2017 Open Space Update, the City is able to maintain its ratio of 7.3 acres per 1,000 residents with our current land and land promised through small area plans, and demographics until 2025. By then, the population is expected to increase to a point where additional open space must be acquired or dedicated to maintain the goal as the population grows.

To date, the City has purchased 13 acres of open space as relates to the desired addition of 100 acres of open space. An additional 92 acres have been protected through dedications, public access and conservation easements. The City's partnership with the Northern Virginia Conservation Trust supports additional protection of open space in Alexandria through voluntary conservation easements and land acquisition. The Open Space Master Plan Update approved in 2017 shows that the City will rely on open space acreage shown in Small Area Plans for the majority of new lands.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Open Space Master Plan (2003, Updated 2017); Strategic Master Plan for Open Space, Parks and Recreation (2003); Eco-City Environmental Action Plan - Land Use Chapter (2018); Urban Forestry Master Plan (2009)

ADDITIONAL OPERATING IMPACTS

No changes from previous CIP.

PROJECT DESCRIPTION & JUSTIFICATION

This project provides funding to meet Federal ADA requirements for outdoor recreational spaces. Consistent with Federal regulations, new park facilities, and existing park facilities such as playgrounds, restrooms, fields, and passive areas, must be made compliant with current requirements. This project addresses revised regulations implementing Title II (State and Local Government Application) and III (Public Facilities) of the Americans with Disabilities Act of 1990. Compliance is mandatory by Federal Law.

Funding for this project was first included in the FY 2000 - 2005 CIP in response to the United States Access Board’s regulations for playground accessibility. Since that time, funds have been used to create accessible routes to playgrounds, install accessible site furniture, and improve accessible pathways and parking in parks. The City completed the Citywide Parks Improvement Plan and the Neighborhood Parks Improvement Plan . Recommendations for ADA improvements in these plans were used to prioritize FY 2020 - 2022 projects. However, due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Park and Open Space Facilities Prioritization Analysis (2012); Recommended as a priority by the Alexandria Commission for Persons with Disabilities; Citywide Park Improvements Plan (2014); Neighborhood Parks Improvement Plan (2016); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023)

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

CHANGES FROM PRIOR YEAR CIP

No changes from previous CIP.

PROJECT DESCRIPTION & JUSTIFICATION

This project provides funding for the conversion of existing natural turf fields to synthetic turf, the life-cycle replacement of carpets on existing synthetic turf fields, and the renovation of natural athletic fields including re-grading and replacing facilities. Consistent with the Athletic Field Strategy Study approved by City Council in 2009, this project addresses the community need to increase the number of playfields for the growing active youth and adult populations. Beginning in FY 2020, funding will implement the following projects:

- FY 2020 – Field improvements at Four Mile Run Park and Eugene Simpson Stadium Park
- FY 2021 – Field improvements at Eugene Simpson Park
- FY 2022 – Field improvements at Eugene Simpson Park, Stevenson Park, and Witter re-carpeting

A fields study was completed in 2009 to identify future projects. Subsequently, in 2012, the Youth Sports Advisory Board provided input through a workshop to help prioritize field projects. Concept plans for the fields at Joseph Hensley Park, Four Mile Run Park, Eugene Simpson Stadium Park, Ben Brenman Park, and Chinguapin Park were adopted in 2014 through the Citywide Parks Improvement Plan. An update of the Athletic Field Master Plan is in progress and anticipated to be complete in 2019.

Design and engineering will be completed for individual projects as needed within the project's fiscal year. Synthetic field conversions improve the quality of the natural environment by reducing the amount of chemicals and petroleum needed for field maintenance and reducing emissions. Synthetic turf fields create year-round playing surfaces that increase the window of potential field rentals from eight to twelve months a year, reduce environmental impacts, and lower operating costs. Athletic field renovations support the well-being of children, youth and families by providing safe and reliable play spaces that promote active lifestyles.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Youth Sports Advisory Board Fields Exercise (2012); Field Report Update - Diamond Fields Study (2015); Athletic Field Strategy Study (2009); Strategic Master Plan for Open Space, Parks and Recreation (2003, Updated 2017)); Citywide Parks Improvements Plan (2014); Neighborhood Parks Improvements Plan (2016)

PROJECT DESCRIPTION & JUSTIFICATION

The City is responsible for the upkeep of 45 public tennis, multi-purpose, and basketball courts throughout Alexandria. These courts are heavily used by residents for general play, classes, programs, and special events. In addition, courts throughout the City are used by Alexandria City Public Schools (ACPS) and rented by neighborhood private schools. Courts are maintained and renovated on a regular schedule. Renovations include patching or replacing surfaces, drainage work, fencing, grading, light repair/replacement and color coating. In 2011, an engineering analysis of structural and component lighting systems of ball field, tennis, and sport field light poles was performed and provided priorities for their replacement and repair. A prioritized list of projects is included on the next page. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change. Projects within Ball Court Renovations are at various stages of planning and design. Full engineering, where required, is scheduled for projects in their respective fiscal year.

This project will enhance recreational courts, thereby supporting healthy lifestyles. Annual maintenance funding also enhances the level of service currently provided to the public, while maintaining the value of the City’s capital infrastructure.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Court Assessment (2011), Engineering Analysis for Ball Field, Tennis and Sport Field Light Poles (2011), Parks and Recreation Needs Assessment (2011, 2013, 2015 and 2017); Citywide Parks Improvements Plan (2014); Neighborhood Parks Improvement Plans (2016); Complies with the Eco-City Charter - Energy Conservation Principal (2008); Recreation, Parks and Cultural Activities Strategic Plan (2018)

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

CHANGES FROM PRIOR YEAR CIP

This is a new project added to the CIP in FY 2020.

PROJECT DESCRIPTION & JUSTIFICATION

This project will provide funding for a future feasibility study of Cameron Run Regional Park. A consultant will facilitate a community-driven public planning process to reevaluate conceptual plans developed in 2017 Planning Process and Conceptual Plans for the Cameron Run Regional Park, located at 4001 Eisenhower Ave. The 2025 plan will consider changes in the community since 2017 and potential impacts to surrounding open spaces, including Hensley Park, located at 4200 Eisenhower Ave. The 2017 feasibility study identified a range of options from a conversion to a full natural site to a multi-use active recreation park with aquatic facility. Costs to implement the 2017 options ranged from \$1.7 million to \$26.0 million.

The project would provide updated conceptual plans, a park management plan and implementation strategies beginning in 2029. The current license agreement between the City of Alexandria and Northern Virginia Regional Park Authority (NOVA Parks), with approved extension, expires in December 31, 2028 with an option to extend beyond that time, if progress toward initial goals has been made.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Cameron Run Park Planning and Conceptual Design (2017); City Council Action (October 2018); Citywide Parks Improvement Plan (2014)

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

PROJECT DESCRIPTION & JUSTIFICATION

Implemented in FY 2017, the Community Matching Fund promotes collaborative partnerships among Alexandria community organizations by providing matching dollars for groups that propose fundraising for park improvement projects. The Fund is designed to foster public/private partnerships and cultivate innovative ways for residents to have a greater stake in improving the park and recreation facilities that they use. These partnerships also provide opportunities for developing positive relationships between the City and the community. Community groups interested in receiving matching funds will annually compete for grant aid amounts up to \$25,000, allowing a minimum of four selected proposals each year. Any community group that lives and/or works in the City of Alexandria can apply for the matching fund. The City evaluates each community group proposal based on how the project fulfills a public need as measured by the Department's needs assessment, park plans, and community feedback. Proposals that also take into account operating costs once the capital project is complete will receive greater consideration for funding. Community groups must show that they can raise their matching funds within one fiscal year.

Since the fund's inception in 2017, 15 projects have been awarded. Some examples include, compost processing centers in parks, updating a teen center, converting a basketball court to a futsal court, retrofitting a playground to include tactile walls for therapeutic recreation programs, and signs describing bird habitats written by children in local environmental science classes.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

PARKnership Policy (2015); Open Space Master Plan (2003, Updated 2017); Park and Recreation Needs Assessment (2015); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023)

CHANGES FROM PRIOR YEAR CIP

No changes from previous CIP.

PROJECT DESCRIPTION & JUSTIFICATION

The Four Mile Run Restoration project includes wetland restoration and replacement of the nature trail with a new pervious surface trail. The trail has only one entrance/exit at the western side of the wetlands, thus leading trail users to a dead end. This connector project will install an 80 foot bridge over the marsh and to the eastern part of the park at the softball field. The connector will improve safety in the park as one could exit the wetlands at either end without being trapped. In spring 2016 the wetlands were opened for the first warm weather season and there is an increase in use at the site. The bridge will ensure the safety of park users and enhance their park experience. The bridge will also provide a more direct route for students and instructors at Cora Kelly Elementary School and Leonard “Chick” Armstrong Recreation Center to access the wetlands for environmental science/education programs. The bridge has been designed and is anticipated to be constructed in 2019. The 2017 Parks and Recreation Needs Assessment shows that walking and biking trails are the greatest recreational need in Alexandria. A bridge connecting the adjacent trails will support this need. In 2017 the City was awarded a grant from Commonwealth of Virginia Department of Conservation and Recreation in the amount of \$300,000 to supplement CIP funds.

CHANGES FROM PRIOR YEAR CIP

No changes from previous CIP.

PROJECT DESCRIPTION & JUSTIFICATION

This project will provide modern, ADA and code compliant satellite storage facilities for two of Alexandria's Citywide Parks. The current facilities do not meet the building code requirements for electrical, mechanical, and combustible item storage facilities, and are inadequate for modern equipment and materials storage. The project will design and develop adequate storage facilities for dry goods, equipment, materials, and parts that are necessary to operate the City's Joseph Hensley and Four Mile district park programs. Facilities are planned for two sites, one at the Joseph Hensley Park, 4200 Eisenhower Avenue, and one at Four Mile Run Park, 3700 Commonwealth Avenue. The project fulfills recommendations in the Citywide Parks Improvement Plans for Joseph Hensley Park and Four Mile Run Park and will improve the department's ability to maintain the value of the City's capital infrastructure.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

RPCA's 3-year Business Plan; Eco-City Charter - Energy (2008); Citywide Parks Improvements Plan (2014)

ADDITIONAL OPERATING IMPACTS

The additional operating costs include estimated funding to cover annual cost of utilities.

PROJECT DESCRIPTION & JUSTIFICATION

This project provides an annual funding stream to address the capital maintenance and renovation needs at the City's park facilities, except the Waterfront Parks, which are covered by a separate CFMP. The list of FY 2020 - 2022 projects was determined through: an evaluation and analysis of the 2011, 2013, 2015, and 2017 Alexandria Park and Recreation Needs Assessments; current facility conditions as evaluated in the 2011 Park Inventory; 2014 Citywide Parks Improvement Plan; 2016 Neighborhood Parks Improvement Plan; and anticipated impact of upcoming adjacent development projects. Beginning in FY 2027, \$42,000 is added to the budget annually to account for new City facilities acquired after 2018. Approximately nine percent (9%) of the total budget for each year is reserved for emergency repair/replacement of park facilities. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change.

This project ensures Alexandria's open space and recreational amenities are safe for the public, allowing increased opportunity for healthy lifestyles. Annual maintenance funding also enhances the level of service currently provided to the public, while maintaining the value of the City's capital infrastructure.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessment (2011, 2013, 2015 and 2017); Open Space Master Plan (2003, Updated 2017); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023); Dog Parks Master Plan (2000/2011); Citywide Parks Improvements Plan (2014); Neighborhood Parks Improvements Plan (2016)

ADDITIONAL OPERATING IMPACTS

PROJECT DESCRIPTION & JUSTIFICATION

The Patrick Henry School, Recreation Center and Outdoor Space Plan includes space for a large athletic field. This project funds one full size synthetic infill system turf field to replace two natural grass fields being displaced as a part of school construction at the Patrick Henry site. The single synthetic field is intended to meet demand for field use upon completion of the new Patrick Henry Recreation Center and PreK-8 school. Athletic field lights are not included in this project. This project also contemplates community uses that include one intermediate age playground and site fitness equipment to replace those that will be displaced by school construction at the Patrick Henry site and the addition of a dedicated recreation center tot lot and school Pre-K playground. The large playground and site fitness equipment will need to meet community demands for site features upon completion of the new Patrick Henry Recreation Center and K-8 school. This project is coordinated with the recreation center and school construction to achieve economic benefits and reduce the impacts to the community. Synthetic turf fields create year-round playing surfaces that increase the window of use from eight to twelve months a year, reduce environmental impacts, and lower operating costs. Athletic field renovations support the well-being of children, youth and families by providing safe and reliable play spaces that promote active lifestyles.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Development Special Use Permit(DSUP)2016-00009, Patrick Henry Site Specific Program Document, February 9, 2016.

ADDITIONAL OPERATING IMPACTS

Anticipated operating costs are based on similar facilities currently being maintained in the City with synthetic turf, recreation play areas, fitness stations and landscape features.

PROJECT DESCRIPTION & JUSTIFICATION

The City maintains roads and parking lots at various sites in the park system. The condition of pavement in many of the City's parks is very poor based on staff inspections. Due to many years of deferred maintenance, there is the potential for some pavement sections to fail, which could potentially require more expensive repairs and major rehabilitation. This project addresses maintenance of pavement in parks, as well as the reconstruction of sections that have exceeded their useful life. Transportation & Environmental Services staff has currently identified 18 parks with roads, parking lots or asphalt surfaces that require maintenance. The Citywide Parks Improvements Plan identified improvements to parking lots in each of the six citywide parks. FY 2020 – FY 2021 projects will be verified through a pavement condition assessment conducted in FY 2019.

Annual maintenance funding enhances the level of service currently provided to the public, while maintaining the value of the City's capital infrastructure.

PROJECT DESCRIPTION & JUSTIFICATION

The annual budget for playground renovations includes funding to ensure that the equipment and surface area of each of the 41 play areas in public parks are consistent with Consumer Products Safety Commission standards and to continue systematic replacement of park amenities (e.g. benches, water fountains, picnic tables) related to playground areas. Funds may also be allocated to projects that will enhance play and youth fitness in parks and may include unstructured play and natural play. Projects planned in FY 2020 – 2022 are included on the next page. Five percent (5%) of each year’s funding is reserved for citywide emergency playground repairs. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change.

This project supports healthy lifestyles and addresses obesity and overall well-being in toddlers, preschoolers, and school age youth. Improving playgrounds provides safe play environments that enhance the well-being of children, youth and families. Annual maintenance funding also enhances the level of service currently provided to the public, while maintaining the value of the City’s capital infrastructure.

PROJECT DESCRIPTION & JUSTIFICATION

This project will add court lights to the basketball courts constructed in Potomac Yard Park. The courts have become very well used, attracting players throughout the day. In the evenings many players stay to play mostly in the dark with a dim street light nearby. Court lighting will provide increased access to recreation throughout the park’s entire operating hours. The new lights will be the same as those on the adjacent tennis courts.

Light It Up!, a group of local volunteer citizens interested in helping finance the cost of procurement and installation of court lights started fundraising in FY 2017. The project will proceed to construction once Light It Up! has their 50/50 matching funds. Construction is anticipated in 2019.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

N/A

ADDITIONAL OPERATING IMPACTS

Electricity for the lights will cost, on average, \$1,500 a year. This estimate is based on similar court light installations in the City.

PROJECT DESCRIPTION & JUSTIFICATION

The condition of restrooms at parks throughout the City is a priority for park users. This project funds the site work, renovation and installation of site specific restrooms to replace existing restroom facilities. The restrooms will be ADA compliant and will reduce long term maintenance of existing facilities. The new facilities will be energy efficient and include green building materials and/or technologies. This project was identified through community input solicited to identify restroom needs. The renovated facilities will address the initiatives to improve ambient air quality in the City through emissions reductions and expand and enhance the City Green Building Program. Renovations will address the initiative to improve youth recreation and athletic field capacity.

PROJECT DESCRIPTION & JUSTIFICATION

Annual funding for this project provides for construction and improvements to the soft surface parks trail/path system in the City. In the 2013, 2015 and 2017 Park and Recreation Needs Assessments, residents overwhelmingly responded that improving and developing trails was their number one need in parks. This project responds to their need by ensuring that the trail system is maintained at a high level of service and provides outdoor walking opportunities. Many of the projects are recommendations in the Citywide Parks Improvement Plan and the Neighborhood Parks Improvement Plan.

The trails provide pedestrian and bicycle connections throughout the City, encouraging healthy lifestyles, and promoting environmental responsibility and ecological awareness through increased exposure to outdoor environments and natural resources. Annual maintenance funding also enhances the level of service currently provided to the public, while maintaining the value of the City’s capital infrastructure. The projects listed are planned for FY 2020 – 2022. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, projects are subject to change.

PROJECT DESCRIPTION & JUSTIFICATION

Funding is provided to renovate and enhance City horticultural sites, as well as to provide for the annual tree planting and care program for trees on public streets, in City parks, and in open spaces. In total, the City maintains over 250 horticultural sites and over 35,000 street trees, which periodically require renovations and enhancements. In September 2009, the City’s Urban Forestry Master Plan (UFMP) was approved by City Council. The UFMP (Recommendation 1) includes a goal of 40% tree canopy cover which was suggested by the organization "American Forests" at that time. The UFMP identifies planting trees as an integral part of sustaining and expanding the City’s tree canopy (Recommendation 3). The total CIP program for planting replacement and new trees, and the associated establishment maintenance and irrigation where necessary, supports an average of 500 trees per year for the next three years, based on the current average installed cost of \$355 per tree (including those requiring establishment maintenance and irrigation). The projects listed are planned for FY 2020 – 2022, but due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, projects are subject to change.

The project is intended to increase the City’s tree canopy, and enhance the City’s visual and environmental quality by reducing the urban heat island effect, limiting erosion, reducing pollutants in the air, and providing additional environmental benefits

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessment (2011, 2013, 2015 and 2017); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023); Open Space Master Plan (2003, Updated 2017); Eco-City Alexandria Charter - Land Use and Open Space and Air Quality (2008); Urban Forestry Master Plan (2009); Environmental Action Plan Phase I Update - Land Use and Open Space (2018)

ADDITIONAL OPERATING IMPACTS

This project includes increased operating costs associated with the planting of new (additional) trees along streets and on public properties.

PROJECT DESCRIPTION & JUSTIFICATION

This project funds the design of efficient water management systems, including the conversion of manual irrigation controllers to automatic (smart irrigation) controllers. Until 2017, most irrigation systems were operated manually without the capability to self-adjust for periods of droughts, power outages, or rainfall. In 2015, the City completed an irrigation audit and data verification collection project. This project provided the information necessary to transition existing irrigation systems to the central control system. As a result of the completion of Phase I in FY 2017, the computerized central control system now operates and controls 28 different sites throughout the City. The central control system allows for operation of all the sites from one location through a combination of cellular and radio communication. The system uses a weather station to automatically adjust irrigation schedules due to weather changes and rainfall amounts. The system also monitors water flow and detects leaks in the systems. This project will improve environmentally sensitive maintenance by implementing a central controlled irrigation system to reduce water usage. More efficient irrigation improves the safety and quality of outdoor playing fields and facilities, which enhances the well-being of children, youth and families. Over the next several years, the system will be expanded and upgraded to include additional City of Alexandria green spaces.

The improvements to the existing irrigation infrastructure, if not pursued, could necessitate the abandonment of declining irrigation systems. The projects listed are planned for FY 2020 – 2022 based on the 2015 study. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, projects are subject to change.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Youth Sports Advisory Board Field Exercise (2012); Environmental and Sustainability Management System (ESMS) Initiative; Recreation, Parks and Cultural Activities Strategic Plan (2018-2023); Eco-City Charter - Water Resource Conservation (2008); Eco-City Environmental Action Plan - Chapter 4, Goal 3 (2009)

PROJECT DESCRIPTION & JUSTIFICATION

This project provides annual funding to address the capital maintenance needs at the City's waterfront park facilities. Projects are determined through an evaluation and analysis of the 2011, 2013, 2015 and the 2017 Alexandria Park and Recreation Needs Assessments; the 2016 Neighborhood Parks Improvement Plan; current facility conditions as evaluated in the 2011 Park Inventory; and anticipated impact of the implementation of Waterfront Small Area Plan as construction documents are developed, governance decisions are made, and operational processes are defined. The project coincides with improvements in other projects including ADA Requirements, Playground CFMP, Soft Surface Trails, Stormwater (Transportation and Environmental Services) and Waterfront Small Area Plan implementation. This project ensures Alexandria's open space and recreational amenities are safe for the public, allowing increased opportunity for healthy lifestyles. Annual maintenance funding also enhances the level of service currently provided to the public, while maintaining the value of the City's capital infrastructure.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessment (2011, 2013, 2015 and 2017); Open Space Master Plan (2003, Updated 2017); Dog Parks Master Plan (2000, Updated 2011); Waterfront Small Area Plan (2012); Landscape & Flood Mitigation Concept Design (2014); Recreation, Parks and Cultural Activities Strategic Plan (2018-2023); Environmental Action Plan Phase I Update (2018); RPCA Natural Resource Management Plan (anticipated 2019)

PROJECT DESCRIPTION & JUSTIFICATION

This project consists of the complete replacement of the existing bulkhead at Windmill Hill Park with a Living Shoreline and other park improvements in the Windmill Hill Park Master Plan. Progress to date includes the installation of a low stone sill at the base of the shoreline, tidal and riparian plantings along the sloping bank, pedestrian paths, water access for dogs and kayaks, planted buffers, and restoration of the Gibbon Street stream outfall including the installation of a pedestrian bridge to provide a continuous waterfront walking trail. Outstanding park improvements such as playground renovation and ADA improvements, consistent with 2003 City Council approved Windmill Hill Park Plan, will be implemented following installation of the northern pier, the last component of Phase I. Final pedestrian safety measures consistent with the Union Street Corridor Study will be implemented in coordination with Transportation and Environmental Services.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Windmill Hill Master Plan (2003); Eco-City Charter - Protect Water Resources (2008); Environmental Action Plan - Chapter 4, Goal 1 (2009); Waterfront Small Area Plan (2012); Union Street Corridor Study (2013); City Council Living Shoreline Concept Approval (2015)

PROJECT DESCRIPTION & JUSTIFICATION

This project provides an annual funding stream to address the capital maintenance needs at the Chinquapin Recreation Center. The City currently has a backlog of maintenance needs at Chinquapin; these existing needs must be prioritized against new maintenance requests throughout the year. The Chinquapin Recreation Center Facilities Maintenance Program (CFMP) project provides a work plan that projects the anticipated timetable and estimated costs of infrastructure and equipment repairs and/or replacements, based on industry standards for life expectancy of equipment and materials necessary to adequately maintain the City facility. In some cases, the equipment may be retained beyond the standard life expectancy if it is in satisfactory operating condition and it is cost-effective to do so. The CFMP also provides for the scheduled capital maintenance needs of Chinquapin, including painting and floor covering (carpet and tile) replacement; mechanical, electrical, plumbing systems and window replacements. A prioritized list of projects planned for FY 2020- 2022 is included on the next page. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change. This CFMP is used to maintain building capital assets. Maintenance keeps the building functioning properly, decreases costly repairs, and promotes a healthy environment.

PROJECT DESCRIPTION & JUSTIFICATION

This project maintains the level of service provided to residents and visitors at the City of Alexandria Marina. The Marina is a destination for the City and requires continued maintenance and upgrades to keep tourists and boaters visiting the City, and must be maintained to ensure safety for its users. City Marina maintenance projects are prioritized to fund safety and security items first. Items to improve visitor safety and security, Department of Homeland Security recommendations, and United States Coast Guard security recommendations are core projects. A Marina Facilities Assessment, completed in 2013, provided details of the condition of infrastructure and identified project priorities within the Marina boundaries. Planned projects are consistent with the recommendations provided in the 2013 City Marina Facility Assessment. The following projects will be funded to ensure the public health and safety: storm damage repairs, fire suppression repairs, railing repairs and improvements, ADA compliance and access, security measures (including cameras and other physical measures) and surface repairs and improvements. Annual maintenance funding enhances the level of service currently provided to users and visitors of the City’s Marina, while maintaining the value of the Marina’s capital infrastructure. Funding in FY 2020 through FY 2029 is reduced based on anticipated construction of flood mitigation projects as part of the Waterfront Plan Implementation.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

City Marina Facility Condition Assessment (2013); Waterfront Small Area Plan (2012); Waterfront Commission Priority (2012). Specific projects are scheduled to capitalize on construction efficiency and limit disruption of service.

ADDITIONAL OPERATING IMPACTS

No additional operating impacts identified at this time.

PROJECT DESCRIPTION & JUSTIFICATION

Recommendation #39 of the Urban Forestry Master Plan (2009), approved by City Council, calls for the implementation of a 5-year rotational cycle for the renovation and maintenance of all established trees planted along City Streets, in parks, and on school grounds and other public properties. This project also funds the Citywide Tree Inventory program that identifies needs and work priorities. Such work is designed to remove dead limbs, eliminate broken/hanging limbs, evaluate the overall health of each tree, identify flaws/hazards/damage resulting from adjacent features/issues (e.g., sidewalks, roads, vehicle damage, etc.), and generally improve the health and potential lifespan of each tree. By improving the health of the City’s trees, this program helps to achieve the City’s tree canopy coverage goals. It also provides an opportunity to evaluate whether some trees are in declining health or otherwise present a need for removal before they fail. The goal is to protect the investment in the long-lived assets (trees) and reduce the need and costs for replacements. The project will allow staff to address a larger number of issues in a pro-active manner before they become problematic, rather than waiting until a limb or tree fails, potentially causing increased damage and inconvenience. A pro-active renovation program will result in a more efficient process, reduced overall cost, and a better level of service for the City and its residents.

PROJECT DESCRIPTION & JUSTIFICATION

This project provides an annual funding stream to address the capital maintenance needs at ten of the City's eleven heavily-used neighborhood recreation centers and other recreational facilities. Chinquapin Recreation Center is addressed in a separate account. The City currently has a backlog of maintenance needs at recreation centers; these existing needs must be prioritized against new maintenance requests throughout the year. The Recreation Center Facilities Maintenance Program (CFMP) project provides a work plan that projects the anticipated timetable and estimated costs of infrastructure and equipment repairs and/or replacements, based on industry standards for life expectancy of equipment and materials necessary to adequately maintain the City's physical plant. In some cases, the City's equipment may be retained beyond the standard life expectancy if it is in satisfactory operating condition and it is cost-effective to do so. The CFMP also provides for the scheduled capital maintenance needs of City facilities, including painting and floor covering (carpet and tile) replacement; mechanical, electrical, plumbing systems and window replacements. A prioritized list of projects planned for FY 2020 - 2022 is included on the next page. Due to the possibility of unexpected or emergency repairs, or if efficiencies can be achieved by staging projects together, the list is subject to change. This CFMP is used to maintain building capital assets. Maintenance keeps the building functioning properly, decreases costly repairs, and promotes a healthy environment.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

RCPA Facilities Assessment conducted in 2013; Recreation, Parks and Cultural Activities Strategic Plan (2018-2023).

ADDITIONAL OPERATING IMPACTS

PROJECT DESCRIPTION & JUSTIFICATION

This project will provide funding to assist in the implementation of the Braddock Metro Neighborhood and Braddock East Open Space/Park component of the plans to be funded by the City and developer contributions for open space. The Departments of Recreation, Parks, and Cultural Activities (RPCA) and Planning and Zoning (P&Z), as well as the Braddock Implementation Advisory Group and Park and Recreation Commission recently completed a park planning process for the one acre Braddock Neighborhood Park, including the city-owned 600 N. Henry Street property. The park plan is intended to guide future redevelopment of the one block site that currently is home to the Wythe Street Post Office and interim public open space. Additional funding beyond FY 2019 is from anticipated development contributions only. Since the balance of the proposed Braddock park land is owned by the United States Postal Service (USPS), any future land acquisition in this block will be contingent on USPS concurrence. USPS has indicated that they would only move (i.e. the mail sorting and distribution functions) from the Braddock area, if an alternative site can be found within the designated service delivery area. Providing a new community recreational amenity and resource will strengthen connections between individual physical fitness and individual health. Supporting a mixed-use redevelopment project on this site, in addition to the creation of a new neighborhood park, may increase property values and tax revenues. Additionally, transforming an industrialized space into a park improves the health of the environment. This project will provide opportunities for children, youth, families and seniors to interact and engage in a safe "third place" - a place outside of work or home.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Braddock Metro Neighborhood Plan; Braddock East Master Plan; Open Space Master Plan (2003, Updated 2017); Recreation, Parks, and Cultural Activities Strategic Plan (2018-2023); Eco-City Charter.

PROJECT DESCRIPTION & JUSTIFICATION

The City's six citywide, multi-use parks serve as the core of Alexandria's park system, offering outdoor opportunities for all residents that range from natural areas and walking trails to athletic fields. Yet, these parks have deteriorated from overuse and lack of sustained investment. As findings from the Citywide Parks Improvements Plan (2014) show, there are incremental changes necessary for the sites to remain relevant open spaces that meet community needs. Through recent community outreach, RPCA has prioritized the needs in each park. Funding in FY 2021 will address Citywide Parks Improvements Plan recommendations in Holmes Run Park. Additional funding will be needed after FY 2027 to complete the Citywide Parks Improvement Plan recommendations. Future improvements, identified as priorities in the plan, include:

- 2021 - Holmes Run Park: Install a pervious trail and mile markers along the south side of Holmes Run Park. Simpson Park: Install water quality Best Management Practice features.
- 2023 – Chinquapin Park: Design and implement a quarter mile walking loop.
- 2024 - Holmes Run Park: Improve Beatley Bridge, improve the picnic grounds, install a trail at Forest Avenue, and improve the community gardens.
- 2025 – Holmes Run Park: Install new bridges and connections.
- 2026 – Holmes Run Park: Install new bridges and connections.
- 2027 – Holmes Run Park: Design of new ADA Trail on the south side of the park.
- 2028 – Holmes Run Park: Install new bridges and connections.
- 2029 – Holmes Run Park: Implement of new trail connections.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Parks and Recreation Needs Assessments (2011, 2013, 2015 and 2017); Youth Sports Advisory Board Field Exercise (2012); Citywide Parks Improvements Plan (2014); Open Space Master Plan (2003, Updated 2017); Four Mile Run Restoration Master Plan (2006); Four Mile Run Design Guidelines (2009); Athletic Field Study (2008); Recreation, Parks, and Cultural Activities Strategic Plan (2018-2023)

No changes from previous CIP.

PROJECT DESCRIPTION & JUSTIFICATION

The Fort Ward Park and Museum Management Plan includes five goal areas and associated recommendations to improve park management/operations (between departments); protect historic and cultural resources currently unmarked/protected; coordinate park improvements with the stormwater master plan; develop historic and cultural interpretation throughout the park; and replace and care for trees. Improvements will be phased over several years to keep the park open to the public while changes are implemented. Priorities for implementing the recommendations of the plan were developed by the Advisory Group, staff and with feedback from the general public. The phased funding planned reflects those priorities. These priorities and the budgeted amounts may be revised in future years based on feedback from the public and the operational needs of Fort Ward.

FY 2021 Funding:

- Phase II soft interpretive trail installation (\$40,000)
- Mark and protect Civil War sites, "Fort Ward" Community sites, and burial sites (\$40,000)
- Trail edge reinforcement (\$40,000)
- Plant 75 new trees with 2 year establishment guarantee (\$50,000)

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Recreation, Parks and Cultural Activities Strategic Plan (2018-2023); 2011-2016 Departmental Strategic Plan - OHA; Recommendation of the Ad Hoc Fort Ward Park Museum Area Stakeholder Advisory Group (2011-2014); 2015 Fort Ward Park and Museum Area Management Plan adopted by the City Council

ADDITIONAL OPERATING IMPACTS

Additional operating costs are associated with the implementation of the approved Plan, such as, the aeration and seeding of the grounds to improve drainage and soil conditions, enhanced tree maintenance program and maintenance of the new/expanded pathway.

PROJECT DESCRIPTION & JUSTIFICATION

Recreation Centers support a meaningful quality of life for City residents, and provide an environment that can reduce the number of youth engaging in risky behavior. This project will replace the existing Patrick Henry Recreation Center and replace it with a new neighborhood recreation center addressing the needs of the immediate surrounding community. City Council approved the project development special use permit on December 17, 2016, and the new Patrick Henry Recreation Center opened in January 2019.

EXTERNAL OR INTERNAL ADOPTED PLAN OR RECOMMENDATION

Patrick Henry Recreation Center Feasibility Study 2014/2015; Development Special Use Permit (DSUP) 2016-0009, 2016.

ADDITIONAL OPERATING IMPACTS

Beginning in FY 2020, the full cost of operating the recreation center is included in the departments operating budget.
