We are replacing 5 front new windows and 2 side windows that are visible from the street(front of house) with new Marvin Wood Tilt Pac Sash Replacement Kits. We are not disturbing any of the existing interior or exterior trim around this window; we are simply replacing the old sashes, installing new jambliners for the new sashes, then installing the new sashes into the new jambliners. This client chose to make these windows Single Hung Sash Replacement Kits, which means the top sash would be fixed. As a result, the bottom sash exterior jambliner will be covered with a piece of wood to make it match the exterior wood window finish -- meaning no vinyl jambliners will be visible from the exterior.

We are replacing the 3 doublehung windows in his front main level bay window. We are only replacing the 3 individual windows and doing no more work beyond that to the bay window. The windows will be full frame Marvin Wood Ultimate Doublehung windows that will be painted afterwards. We are installing new exterior brickmould trim that will be the same size and shape to the existing trim that is there -- no visual change whatsoever. The windows will be double glazed glass with 7/8" Simulated Divided Lite Grilles with a light bronze spacer bar between the grilles and the perimeter of the glass unit. We are repainting the exterior of the windows and the new trim the same paint color which is there now.
