Alexandria City Hall Structural Repairs. The scope of work includes repairing and strengthening the roof framing and strengthening its diaphragm, repairing and repointing upper sections of masonry bearing walls, installing new attic insulation and vapor barriers, replacing gutters and downspouts, repairing deteriorated exterior wood cornice framing and trim and select areas of adjacent brick masonry, repairing and repointing the brick smoke stack and replacing its lightning protection. The scope also includes repairing and replacing sections of ceilings in finished spaces below attic levels that are affected by the structural work, painting of rooms below attic work, and making adjustments to mechanical and electrical equipment as needed to access or install the structural repairs. The work shall be undertaken in four phases as indicated on the drawings. Phases may be combined at the Owner's option.
