PLM2021-00216	214 FAIRFAX ST	When we purchased our house in August 2020 it was a 3 bed, 3.5 bath. A past stairwell modification permit included deleting an existing hall bath (to make our house a 3 bed, 2.5 bath temporarily), which included moving the plumbing lines into the future bathroom location (in a room just next to the previous bathroom location, as the previous bathroom location became the new landing with the new stairs) and then capping them at the new location (as we were not ready to move forward with re-installing the bathroom at the time). We are now ready to move forward with our bathroom remodel to bring our house back to the original 3.5 bathrooms, with this bathroom in discussion having moved just next-door from its original location. We are adding 1 toilet and 1 sink basin to the original 1 sink, 1 toilet, 1 shower layout. We are hoping rough inspection can be called.	RES	R-5	02/17/2021	02/25/2021	6	0	0	ADD	YES	\$15,000.00

The proposed work is to add a new shed dormer to the existing attic level of a masonry townhouse built in 1974 . The rear dormer will face the rear yard and will not project over the rear existing masonry facade of the residence. The height of the dormer will not project over the existing roof ridge and should not be visible from any point along South Union. The rear dormer will be constructed of wood with 3 windows, painted lapped siding, and painted trim. The existing house footprint will remain unchanged. There are no other exterior alterations being requested
