

City Strategic Plan Goal 1 Comments
January 7, 2010

Please reduce City Govt employees, grant, subsidies and close down Economic Development "partnerships" and private/public Partnerships. Reduce Taxes and streamline regulation. Eliminate "affordable Housing" lending by the government for city employees as this increases the cost of housing AND the cost to us to live and work here. Reject borrowing on a Federal, State or Local level for development as we, the citizens, must pay for this in taxes and declining purchasing power.

Stop accepting Stimulus money as again, this must be paid for by Alexandrians.

Thank you for your time.

Lisa Miller
