DID YOU KNOW?

- Many people believe prescription drugs are safer than illegal drugs because a doctor prescribed them—they're not.
- More people die accidentally from prescription drugs each year than all types of illegal drugs combined.
- Combining pain killers or anti-anxiety drugs with alcohol multiplies the effect—your heart or your breathing can stop.
- Drug-induced deaths now exceed deaths from motor vehicle accidents in more than 17 states.
- Most kids who abuse prescription drugs report they get them from their home medicine cabinets or from friends.
- Proper disposal of unwanted medication prevents environmental contamination of our waterways and soils.
