Special Revenue Funds account for all non-General Fund revenue. The majority of this revenue is derived from specific sources (other than capital projects) that are restricted by legal and regulatory provisions to finance specific activities. In addition to revenue received from outside sources, the City also accounts for donations and charges or fees for services in these funds.

The City receives funding from several different types of sources with a variety of requirements. Basic categories and types of grants are presented below. An example of funding currently received by the City is included.

Types of Funding (examples of City programs)

- Competitive grants (Federal or State)
 - One-year funding - Victim Witness Program - Commonwealth's Attorney
 - Multi-year funding - Virginia Tobacco Settlement Grant - MHMRSA
- Non-competitive or formula-based grants (federal or State)
 - Allocations for general programs – Community Development Block Grant - Housing
 - Allocations for defined programs – Substance Abuse Prevention and Treatment – MHMRSA
- State General Fund Revenues – Mental Health/Mental Retardation/Substance Abuse
- Federal Earmarks/Grants – King Street Metro Platform Extension
- State Earmarks/Grants – Gadsby's Tavern Improvements

Grant Funding and Special Revenue Funds

Special Revenue Funds can rarely be used to replace or supplant City funds and the amount of funding received varies. In addition, the City's requirement to contribute funding for the program varies based on the program requirements. The City Department grants described in pages 11 and beyond reflect the revenue the city receives from the grant agency, mandatory cash match amounts, as well as voluntary general fund support to provide an enhanced program or to cover program costs that exceed revenue. There are a variety of ways in which the City receives special revenue funding:

- Fully-funded or partially funded – There is no expectation of City funding.
- Level effort/minimum level spending – The City is expected to continue to provide the same level of funding as it did prior to receiving special revenue.
- Mandatory city match – There is a percentage share of program costs that the city is required to contribute.
- Voluntary city match – There is no requirement by the funding agency, but the City contributes general funds in order to enhance the program.
- In-kind contribution – There is no expectation of cash from the City, but the City is expected to provide support. This is often done in the form of administrative support, lease costs or other quantifiable programmatic support.
- Reimbursement – The City incurs costs and applies for full or partial reimbursement from the funding agency.

The Special Revenue described in this section do not include funding from the State and federal government that is accounted for within the City's General Fund, such as HB599 law enforcement aid and funding for street maintenance. State Compensation Board funding is also accounted for in the General Fund and is received from the Commonwealth to compensate the City for constitutional officers or positions related to them, such as the Clerk of the Court and the Sheriff.

As shown in the pie chart on the following page the City's Special Revenue Fund budget of \$118.1 million consists primarily of State Aid, Federal Aid and discretionary State and federal grants (\$86.9 million) and charges for fees, donations and other sources (\$31.2 million). This compares to the FY 2011 approved Special Revenue Fund budget of \$116.8 million. As shown in the table on the following page, the 1.3%, or \$1.5 million, increase is primarily attributable to \$1.8 million in anticipated state and federal revenue increases for the Schools and \$0.8 million in increased federal revenues for the Fire Department associated with the SAFER grant. Additional federal funds (\$0.1 million) are also estimated for the HAP loans program in the Housing Department. These increases are offset by approximately \$0.4 million in state revenue decreases for the CSA program related to decreased program expenses and approximately \$0.9 million in both state and federal revenue decreases associated with child welfare activities related to foster care and adoptions. The remaining increase comes from \$0.5 million in real property tax revenue assigned as special revenue and generated from the Potomac Yard Special Services District for Potomac Yard Metrorail Financing.

There is also a decrease of approximately \$1.0 million in taxes and fees associated with stormwater management and sanitary sewers in the Transportation and Environmental Services Department. This reduction is due to a lower projected revenues from new sanitary sewer tie-ins as well as because the stormwater management fund will only receive a dedicated 0.5 cents of assessed value on two semi-annual real estate tax payments, rather than the three semi-annual payments received at the start-up of the fund (FY 2011). Additional revenue is anticipated to be generated in Code Administration from developer fees.

There is an additional increase of approximately \$0.4 million in special revenue funds for Transit Subsidies, including an increase of \$287,000 in DASH operating revenues and \$150,000 in federal reimbursement for bus rehabilitation.

FY 2012 Estimated Special Revenue Funds \$118.1 million

Summary of Major Special Revenue Sources by Department

On the subsequent pages, the Special Revenue Funds received from the State and federal government for each Department are described. Donations, fees and charges for services are not included. The budget estimates reflect the most current information available from grant agencies.

Table VIII provides a list of grant programs currently budgeted for FY 2012. City Council approval of the FY 2012 budget provides authorization to apply for the grants to pursue these funds. Adjustments to the grant budgets described will be made through the supplemental appropriations ordinances once the grant award is received and accepted.
