NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

The actuarial valuations for all the defined benefit pension plans are performed annually with the exception of VRS, which is performed biennially; however, an actuarial update is performed in the interim year. In the current valuation report, VRS changed the asset valuation method. The method used for prior valuation was a five year smoothed market value of assets but not less than 80% or more than 120% of the market value. VRS elected to suspend this corridor for the current valuation. The elimination of this corridor reduced the employer contribution rate from 9.82% to 7.78% with approximately \$2.5 million in savings for fiscal years 2011 and 2012. The current valuation also reflects increased rates of withdrawals for general employees, changed rates of service retirement and decreased rates of disability retirement for general employees. The number of active members shown includes those who have worked for the City at one time, but who are now active in another jurisdiction. Also the number of retirees includes those who retired from the City, as well as those who retired from another jurisdiction with service attributable to the City. The liability for the City's share of the benefits for those employees has been reflected in the pension liabilities and employer contribution rates. Financial statements and required supplementary information are presented in the VRS comprehensive annual financial report, which can be obtained by writing to the Virginia Retirement System, Post Office Box 2500, Richmond, Virginia 23218.

The City had assumed the responsibility of paying 2% of the employee share of contributions for City Supplemental pension plan. The employees commencing their participation in this plan after July 1, 2009, will make two percent of the employee contributions. The City will continue to make the two percent contribution for employees who were participants prior to July 1, 2009. However, these contributions will be characterized as employer contributions.

Since the prior valuation (As of July 1, 2008), the recommended annual employer contribution for Firefighters and Police officers pension plan increased from \$7.18 million (21.45% of projected salary) to \$7.92 million (23.8% of the projected salary). For the Disability plan these rates increased from \$1.24 million (3.72%) to \$1.47million (4.42% of projected salary). The increases in recommended employer contribution rates for both these plans are mainly due to rates of return that were far lower than projected. These increases were partially offset by salary increases that were lower than projected. The current actuarial valuation report is as of July 1, 2009 and the changes in the value of assets subsequent to that date are not reflected. Declines in the asset values will increase the actuarial cost of the plan and the effect would be spread over four years. The asset valuation method for these plans was also changed effective this valuation. The smoothing corridor around the market value was extended from 80%-120% to 75%-125% which lowered recommended contributions by \$385,518 and \$37,816 for Basic plan and Disability component, respectively. All other aspects of the asset valuation method remained same.

There were no changes in actuarial assumptions, benefit provisions, or funding method for the pension plan for Police and Fire. The major provisions of all the defined benefit pension plans are listed in this disclosure.

* The City assumed the responsibility of payment of employees' share of contributions. Starting July 1, 2009 the City's payment on behalf of the employees for City Supplemental will be characterized as employer's share. The new hires will be required to pay their share. Administrative costs of all the pension plans are financed through investment earnings except Public Safety Retirement and Sheriff Retirement plans, where the cost is assumed by the City. The Contribution requirements for all pension plans (except VRS) are established and may be amended by City Ordinance. VRS requirements are established and may be amended by State Statutes. No contributions were made to Firefighters and Police defined contribution component plan during FY 2010.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

DESCRIPTION OF BENEFITS:

VRS – City - Employees with credit for services rendered prior to July 1, 2010 are covered under plan 1, while members hired or rehired on or after July 1, 2010 are covered under plan 2. Employees are eligible for an unreduced retirement at age 65 with 5 years of service and at age 50 with 30 years of service under plan 1, and at normal Social Security retirement age with at least five years of service or when age and service are equal to 90 under plan 2. An optional reduced retirement benefit is available as early as age 55 with five years of service or age 50 with 10 years of service under plan 1 and age 60 with at least five years of service under plan 2. The retirees are entitled to an annual retirement benefit payable monthly for life in an amount equal to 1.7 percent of their average final salary (AFS) for each year of credited service. AFS under plan 1 is 36 highest consecutive months while it is 60 highest consecutive months under plan 2. In addition, retirees qualify for annual cost-of-living (COLA) increases on July 1 of the second calendar year after retirement. These benefit provisions and all other requirements are established and may be amended by State statutes.

City Supplemental Retirement Plan- Regular City employees who retire at or after age 65 or after age 50 with 30 years of credited service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to the sum of (1) and (2), increased by 50 percent, plus (3):

- (1) 1.625 percent of the participant's past service compensation up to \$100, plus 0.25 percent of the participant's past service compensation in excess of \$100, multiplied by number of years of credited service earned after July 31, 1960, but prior to August 1, 1970.
- (2) 1.625 percent of the participant's average earnings up to \$100, plus 0.25 percent of the participant's average earnings in excess of \$100, multiplied by the number of years of credited service earned after July 31, 1970, but prior to January 1, 1988.
- (3) 0.80 percent of average earnings multiplied by credited service earned after December 31, 1987.

The Sheriff's Deputies, ERT and Fire Marshals who retire at age 65 or after age 50 with 25 years of service are entitled to the sum of (1), (2) and (3):

- (1) 0.6 percent of average earnings multiplied by first five years of credited service,
- (2) 0.9 percent of average earnings multiplied by next ten years of credited service, and
- (3) 1.0 percent of average earnings multiplied by all years of credited service in excess of fifteen years.

Benefit provisions are established and may be amended by City Ordinance.

Pension Plan for Fire Fighters and Police Officers (closed plan) - Employees who retired on or after age 60 are entitled to an annual retirement defined benefit, payable monthly for life, in an amount equal to 2.5 percent of final average earnings multiplied by years of credited service, up to a maximum of 30 years. The plan also provided early retirement on or after age 50 with 20 years of credited service or on or after age 56 with 10 years of credited service. This plan further provided early retirement on or after age 50 with 10 years of service with an actuarially reduced benefit. Benefit provisions are established and may be amended by City Ordinance. This plan was closed to new participants in FY 1979.

Firefighters and Police Officers Pension Plan - defined contribution component (closed plan) - The employees are entitled to contributions made on their behalf after 100 percent vesting. Benefit provisions are established and may be amended by City Ordinance. This plan was closed to new members in FY 2004 and converted to a defined benefit plan. Employees in the plan at date of conversion could leave their contributions in the defined contribution component or purchase prior service with the assets associated with their contributions.

NOTE 17. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Firefighters and Police Officers Pension Plan - defined benefit component - The plan provisions were approved by City Council in FY 2004 and provide retirement benefits for covered employees who retire at age 55 with 5 years of service or any age with 25 years of service. The retirees are entitled to 2.5 % of the participant's average monthly compensation (AMC), multiplied by the years of credited service up to 20 years; plus 3.2 % of the participant's AMC, multiplied by years of credited service in excess of 20 years. The maximum benefit is 82% of the AMC. The plan also allows for early retirement at age 50 with 20 years of service with reduced benefits.

Firefighters and Police Officers Pension Plan - disability component - The plan provisions provide disability benefits for firefighters and police officers. The benefits for service-connected total and permanent disability are 70 percent of final average earnings, 66 2/3 percent for non-service connected total and permanent disability and service-connected partial disability, and 50 percent for non-service connected partial disability. Benefits provisions are established and may be amended by City Ordinance. Effective January 1, 2004, this plan was merged with the Firefighters and Police Officers Pension Plan. Separate actuarial calculations have been performed for the defined benefit and disability components.

Retirement Income Plan for Deputy Sheriffs and Emergency Rescue Technicians - This plan provides for benefits to be distributed in the case of termination, retirement, death, or disability to deputy sheriffs, fire marshals and emergency rescue technicians. Distribution options include cash distribution, annuities, or a combination of the two. Benefit provisions are established and may be amended by City Ordinance.

NOTE 18. TERMINATION BENEFITS

The City provided termination benefits to six employees in fiscal year 2010. The benefits consisted of three to six weeks of pay based on completed years of service. The total cost to the City was \$87,705. There were no other benefits provided.

NOTE 19. ACCOUNTING CHANGES AND RESTATEMENTS

During the fiscal year ended June 30, 2010, the City adopted:

GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*. This statement establishes accounting and financial reporting requirements for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer softer. See Note 5 and table below for detailed information.

GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This statement establishes accounting and financial reporting requirements for derivative instruments entered into by state and local governments. The implementation of this statement did not have a material impact on the financial statements.

GASB Statement No. 58, *Accounting and Financial Reporting for Chapter 9 Bankruptcies*. This statement establishes accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. The implementation of this statement did not have a material impact on the financial statements.

The following table shows beginning net capital assets restated for the effects of implementation of GASB Statement No. 51:

Capital Net Assets at June 30, 2009 – Primary Government	\$ 549,402,396
Net Intangible Assets (Net of Accumulated Depreciation)	<u>709,649</u>
Restated Net Assets as of July 1, 2009	<u>\$ 550,112,045</u>

** The Pension Plan for Fire and Police is a closed plan with no active participant.

(a) The aggregate actuarial cost method was changed to entry age cost method for City Supplemental pension plan during fiscal year 2007. Only four years of information was available. This will be expanded when information becomes available.

Six-year historical information of City's defined benefit pension plans is presented to help users assess each plan's funding status on a going concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

Analysis of dollar amounts of plan net assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing plan net assets as a percentage of the actuarial accrued liability provides one indication of each plan's funding status on a going concern basis. Analysis of this percentage over time indicates whether the plan is financially stronger or weaker. Generally, the greater this percentage, the stronger the plan. Trends in the unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the plan's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller the percentage, the stronger the plan.
