NOTES

1 - The data for companies managing a small number of pools should be used with caution due to the lower statistical power of the data

2 - Based on routine pool inspections conducted May 23 through Sept 7 (7 inspection cycles)

3 - Not including phone, bathhouse, drinking fountain, gate & fencing violations (items that are normally the responsibility of the pool owner)

4 - Major (ticketed) violations include operating without a certified pool operator, operating without a qualified lifeguard, operating without required safety equipment, and repeated violation of the same code requirement.

5 - Pool closures typically occurred because pools were being operated without a certified pool operator, or were being operated with no disinfectant or too much disinfectant.

6 - Risk weighted average counts violations, ticketed violations (count double), and pool closures (count quadruple).

<u>PERFORMANCE</u>	<u>Risk Weighted Average</u>	<u>Percent of All Pools</u>
	0.00-0.20	15.04%
	0.21-0.40	45.11%
	0.41-0.60	29.32%
	0.61-0.80	7.52%
	0.80+	3.01%
