CHARTS
NOTES: The site grid was established on the basis of distance West and distance North. The origin of the site grid (SW N - 0 R W) is the inner edge of the sidewalk along South Payne Street opposite the utility pole in the SE corner of the survey area where the pole is located at 0 ft N - 0 ft W on the site grid and the R 3 pole is in the South Payne Street curb.

Site topography was derived from LiDAR data obtained from Virginia Information Technologies Agency (VITA), Contour interval 0.5 ft. The background image is from Google Earth image from April 10, 2018, Gray shaded areas within survey area represent dense vegetation where surveying was not practical.
