

Tricorn Hat

All classes of men wore hats to complete their outfits, and the most popular in the 18th century was the tricorn. This style of hat allowed for gentlemen to show off a wig, a mark of his higher class status. The decorative features of a tricorn went from very simple to fancy with cockades, feathers and trims. If you have a hat that's cocked on three sides, wear the longest side facing the front.

What you will need:

- 3 pieces of Construction Paper
- Scissors
- Stapler
- Pen or Pencil
- Template, page 2 (need 3 brims and 6 stars)

Make your Tricorn Hat:

1. Draw on your brim a cockade or other decorative elements.
2. Staple one star to the tip of each brim (2 stars per brim).
3. Staple each brim and star to another separate brim and star until all three brims are connected (you are making a triangle).
4. Place tricorn on head and take a jaunty picture.
