ASSISTED HOUSING PROGRAMS IN THE CITY OF ALEXANDRIA

Within Alexandria, both public and private owners of rental housing offer assisted housing affordable to low and moderate income residents of the City through participation in state, local or federal programs. These units are available to income eligible households and some programs give priority or restrict admission to specific populations such as elderly or disabled residents.

Public Housing and the Housing Choice Voucher Program

The Alexandria Redevelopment and Housing Authority (ARHA) owns and manages public housing in the City of Alexandria. ARHA also administers the federal Housing Choice Voucher program (formerly known as the Section 8 program.) Both programs have waiting lists maintained by ARHA.

ARHA owns almost 1200 housing units in the City of Alexandria, most of which were built or acquired using federal public housing funds. These units include townhouses, apartments and condominium units, and are located throughout the City. Public housing residents pay 30% of the household's adjusted income for rent

ARHA also administers the Federal Housing Choice Voucher rental subsidy program (formerly known as the Section 8 Program) for the City of Alexandria. Participants in the Housing Choice Voucher Program receive assistance to rent privately-owned housing units that are located in apartment complexes, condominiums, townhouses, or single-family homes.

For more information contact ARHA directly at (703) 549-7115. Additional information can be found on ARHA's website at www.arha.us.

Privately Owned Subsidized Housing

Some multifamily apartment complexes participate in federal programs that are subsidized through programs that allow eligible households to pay 30% of their income for rent. The subsidy is assigned to the unit, and is available only while the individual or family lives at that property. Households cannot take the rental subsidy with them if they move. These programs are administered directly at each property, and interested persons should contact individual properties for information on availability or waiting lists.

* Serves elderly households (62 and older) ** Serves people with specific disabilities

Other Assisted Housing and Affordable Rental Programs

Through participation in a variety of federal, state and local programs, some complexes offer affordable rents to eligible low and moderate income households. Although these properties do not base rents on the income of each household, rents are restricted and affordable to people within the eligible income categories that the property serves. These rents are below most area rents, and these properties also accept tenants assisted through the Housing Choice Voucher program.

Affordable Rental Set-Aside Program

A limited number of discounted units in some newly constructed rental developments are provided through the Affordable Rental Set-Aside program under City's Affordable Housing Policy. Units designated as affordable set-asides have long-term affordability requirements, are discounted by the developer to levels affordable to low and moderate income renters, and rents and income limits are monitored by the City. The units are rented directly from each participating property, and interested persons should contact these properties directly to determine availability.

When new units are added to the program in newly constructed properties, the Office of Housing notifies interested persons by email. To be added to the list for notification, send a request from the email address to be added to juanita.norwood@alexandriava.gov. Be sure to update your email address when changes occur to remain on the list.
