ALEXANDRIA RENEW ENTERPRISES

Potomac Interceptor Cleaning and Inspection Project

Beginning February 2015, Alexandria Renew Enterprises will perform preventive maintenance on the Potomac Interceptor. This work involves cleaning and inspecting this major underground sewer line to help locate defects and identify areas for additional assessment. This work will improve the sewer's performance and reduce the chance of future sewer back-ups and related problems.

WHEN:

FEBRUARY-JULY 2015

Work will largely be conducted between Monday and Friday from 7:00 am to 6:00 pm. However, if flow or other conditions necessitate, some work may be performed at night. Any night work will be coordinated with the City of Alexandria and compliant with City Code.

WHERE:

Work will start at Pendleton and Union Streets and go south/southwest.

- North to South on Union St.
 - Pendleton St. to Queen St. (approx. 2-4 weeks)
 - Queen St. to Wolfe St. (approx. 5-7 weeks)
- Intersection of Wolfe St. and Union St. to AlexRenew facilities (approx. 14-16 weeks)

Work will not occur in the same location for the duration of the project.

HOW WILL THIS AFFECT YOU?

You may see and hear vacuum trucks from Video Pipe Services, AlexRenew's contractor.

QUESTIONS OR COMMENTS?
