SUBJECT: Special Use Permit #2017-00137
Administrative Review for Change of Ownership
Site Use: Light Automobile Repair
Applicant: CB Squared Services Inc.
Location: 2912 Duke Street
Zone: CG / Commercial General

Request
Special Use Permit #2017-00137 is a request to change ownership of an existing light automobile repair garage from Duke St. Lubrication Inc., to CB Squared Services Inc. The business will continue to operate between 8 a.m. and 8 p.m. daily. No changes to the operation are proposed.

Background
The subject property is a lot of record with approximately 100 feet of frontage on the south side of Duke Street, a depth of approximately 200 feet and an area of about 20,000 square feet. It is developed with the existing Jiffy Lube service building, 10 parking spaces and landscaping. The site is bordered by a Shell service station on the west and an Exxon service station on the east. Across Duke Street to the north is a townhouse office complex.

The Jiffy Lube service business was originally approved by City Council in 1988 by Special Use Permit #2064. The operation provides automobile services, including oil changes, transmission fluid changes, radiator flush and fill, and replacement of air filters. The new owner proposes no changes to current operations.

Parking
The 2,108-square foot light automobile repair shop is required to provide six parking spaces pursuant to Sec. 8-200 (A) (17) of the Zoning Ordinance. The applicant provides ten parking spaces, exceeding the zoning requirement.

Community Outreach
Public notice was provided through eNews, via the City’s website, and by posting a placard on the site and other community associations notified. Staff has not received any comments from residents or adjacent businesses.

Staff Action
Staff does not object to the change of ownership request. Staff has carried over conditions
from SUP #96-0037 and several conditions have been amended and added to reflect modern condition language.

Staff has deleted Conditions 9, 10, 11, 12, and 18 as these conditions have been satisfied by the applicant. The proper disposal of waste products is regulated in condition #21, and air pollution prevention measures in condition #25. Condition #23 limits the loading and unloading of vehicles to on-site locations during hours of operation while supply and delivery schedules are mandated in Condition 27.

Staff hereby approves the Special Use Permit request.
