Summary of Government LEED® Incentives – August, 2007

This document summarizes efforts on the state and local level to build incentive-based programs for the development of green buildings, with a focus on USGBC's LEED Rating System. Government incentives are categorized as either emanating from the state level or the local level. For updates, contact:

COUNTIES, CITIES & TOWNS

ACTON, MA
density bonus
April 5, 2004: A new zoning by-law (section 5.5B.2.2.d) unanimously adopted at the Annual Town Meeting gives a density bonus for buildings achieving LEED certification.

ARLINGTON COUNTY, VA
density bonus
expedited permitting
Arlington County’s Green Building Incentive Program, adopted in 1999 and expanded in 2003, allows commercial projects and private developments earning LEED Silver certification to develop sites at a higher density than conventional projects. All site plan applications for commercial projects are required to include a LEED Scorecard and have a LEED Accredited Professional on the project team regardless of whether or not the project intends to seek LEED certification. All projects must contribute to a green building fund for county-wide education and outreach activities. The contribution is refunded if projects earn LEED certification. Arlington sponsors a voluntary green home program that encourages builders of new single-family homes to incorporate energy efficient and other green building components in their projects. The County offers "front-of-the-line" plan review, site signs, and publicity to program participants who achieve a given number of points as outlined by Arlington's Green Home Choice program.

BABYLON, NY
fee reduction/ waiver
On November 29, 2006, the Town of Babylon passed a resolution adopting a local law that requires LEED certification for any new construction of commercial buildings, office buildings, industrial buildings, multiple residence, or senior citizen multiple residence over 4,000 square
feet. If certification is achieved, the Town will refund the certification fees paid to USGBC by the developer.

**BALTIMORE COUNTY, MD**

*tax break*

On June 5, 2006, the County Council passed bill #85-06 that gives a county property tax credit to any commercial building that achieves LEED-NC Silver certification. The duration of the tax credit is for ten consecutive years.

**BAR HARBOR, ME**

*density bonus*

On June 13, 2006, Bar Harbor amended its municipal codes to award a density bonus of an additional market-rate dwelling unit for construction projects in which all dwelling units meet LEED standards. This bonus applies to projects within a Planned Unit Development and compliance is determined by either application or by affidavit for adherence during construction.

**CALGARY, AB**

*fee reduction/waiver*

The City Council passed a Sustainable Building Policy (#CE001) on September 13, 2004 that requires new or significant renovations over 500m2 to achieve LEED Silver certification or higher. In the spring of 2007, the City Council passed the Calgary Building Permit Bylaw (64M94 page 17) allowing for a fee reduction for all private projects pursuing LEED or Build Green certification.

**CHATHAM COUNTY, GA**

*tax break*

In May, 2006, the Board of Commissioners of Chatham County passed an ordinance amending Chapter 7 of the county code that gives full property state and county tax abatement for commercial buildings achieving LEED Gold certification for the first five years, then tapering off by 20% each year until the tenth year. Qualifying projects are new or expanding businesses in an enterprise zone that increase employment opportunities. (See pages 79-85)

**CINCINNATI, OH**

*tax break*

On May 9, 2007, the City of Cincinnati amended legislation that established and defined The City of Cincinnati Community Reinvestment Area, adding an automatic 100% property tax exemption for developments that meet a minimum of LEED Certified for newly constructed or rehabilitated commercial or residential buildings. For buildings that meet LEED Certified, Silver and Gold, the maximum amount of abatement per dwelling unit is $500,000 over 15 years for new construction or over 10 years for renovation/remodel. There is no maximum for LEED Platinum. Previous legislation - Ordinance #274-2006 and Ordinance #342-2002 – offered the tax exemption at a maximum of 10 years and capped the maximum tax abatement amount lower than that of 2007. The latest 2007 legislation supersedes both the older 2006 and 2002 ordinances. On September 20, 2006, the City of Cincinnati passed an ordinance requiring new municipal buildings to be LEED certified. Renovated municipal buildings should incorporate LEED principles during construction.
CRANFORD, NJ  
*i incentive by request*

On November 15, 2005 the Township of Cranford adopted *Ordinance No. 2005-46* requiring all township-funded facilities projects and township-owned facilities to meet LEED Silver certification. The Township also adopted LEED-EB for its existing facilities. The township also has an incentive program whereby redevelopers may request an incentive, such as a density bonus, for achieving LEED certification.

GAINESVILLE, FL  
*fast-track permitting  
fee reduction/waiver*

The city passed *Ordinance # 1835* (Chapter 6, Article I.5) requiring government county buildings be LEED certified. Additionally, the county is providing a fast-track building permit incentive and a 50% reduction in the cost of building permit fees for private contractors who use LEED.

HONOLULU, HI  
*tax break*

In February, 2006, the City and County of Honolulu passed Ordinance #06-06 requiring new city facilities over 5,000 square feet to be LEED Silver beginning in FY2008. A 2004 ordinance provides an exemption from real property taxes on the building improvements for a period of one year on all new commercial, resort, hotel and industrial construction that achieves LEED Certification.

HOWARD COUNTY, MD  
*expedited permitting  
tax credit*

On July 30, 2007, Howard County passed Bill #47-2008, requiring all new county projects (new construction, major renovation and core & shell) to achieve LEED Silver. Private construction greater than 50,000 square feet is required to achieve LEED Certified. The bill also includes expedited permitting for projects seeking LEED Gold or Platinum. On the same day, as part of the county’s green building policy package, *Bill #49-2007* established a five-year property tax credit for projects that achieve LEED-NC and LEED-CS. The credit increases depending on the level of certification: 25% for LEED Silver, 50% for LEED Gold and 75% for LEED Platinum. County tax credits for buildings certified under LEED for Existing Buildings extend for three years: 10% for LEED Silver, 25% for LEED Gold and 50% for LEED Platinum. These tax credits will be available for tax years beginning after June 30, 2008.

ISSAQUAH, WA  
*expedited permitting*

The City of Issaquah passed *Resolution #2004-11* in December, 2004, adopting a sustainable building and infrastructure policy. Developers intending to use LEED may receive free professional consultation and projects achieving LEED certification are placed at the head of the building permit review line.

KING COUNTY, WA
King County Council established a **Green Building Grants Program** that offers from $15,000 to $25,000 in grant funding to building owners who meet a minimum of LEED Silver for new construction or major renovation in the county, but outside the City of Seattle.

**LOS ANGELES, CA**

**expedited permitting**

In July, 2007, Mayor Villaraigosa announced the City’s new private sector green initiative that, among certain large commercial project requirements, will offer expedited permitting to all projects meeting or exceeding LEED Silver. On March 14, 2007, the Los Angeles Department of Water and Power Board of Commissioners, who are appointed by the Mayor and approved by the City Council, approved a policy to expedite water and electrical connections for buildings that meet LEED Silver. LADWP has also adopted a policy to require that its construction projects meet LEED Silver. In addition, builders and developers can take advantage of the **LADWP Green Building Incentive** that offers up to $250,000 in financial incentives to assist a building in becoming more green and meeting LEED standards.

**MONROE COUNTY, NY**

**tax credit**

On June 14, 2007, Monroe County Executive Maggie Brooks launched an **initiative** that requires adherence to LEED standards for new county buildings and major renovations of greater than 5,000 gsf. The initiative also directs the County of Monroe Industrial Development Agency to extend tax abatements from 10 to 14 years and adopt any further green building incentives to encourage the private sector to implement LEED.

**MIAMI LAKES, FL**

**expedited permitting**

**fee reduction/ waiver**

On July 10, 2007, the Miami Lakes Town Council adopted **Ordinance #07-92**, establishing a Green Building Program that requires all future buildings built by the town to meet at least 50 percent of LEED requirements. The program also allows for expedited permitting and possible fee reductions or rebates for private developers who build to the Green Building Program’s standard.

**NASHVILLE, TN**

**density bonus**

On Feb. 22, 2007, the Nashville Planning Commission approved a density bonus for applying LEED to construction projects in certain neighborhood districts. In the downtown area, development in the Central Business District is eligible to increase the Floor Area Ratio (FAR) cap from 15 to 17 if the project achieves LEED Silver. Projects in this district benefit from a FAR of 19 if the project achieves LEED Gold. In the SoBro neighborhoods, developments are eligible to increase the FAR cap from 5 to 7 if the project achieves LEED Silver. Projects in these neighborhoods benefit from a FAR cap of 9 if LEED Gold is achieved. Read the **report**.

**OAKLAND, CA**

**free consultation/**
promotional services
Oakland’s 2005 Ordinance also promotes the use of green building strategies in private sector development by offering free technical assistance, green building guidelines and public promotion for qualified projects.

PASADENA, CA
grant
free technical assistance
Developers who exceed the minimum certification will qualify for a rebate from Pasadena Water and Power. The PWP High-Performance Building Program matches one month’s electricity savings for each percent efficiency better than code that the building performs (capped at $100,000). Additionally, developers who include affordable housing will earn a construction tax rebate of $1000 per unit. PWP’s Pasadena LEED Certification Program offers $15,000 grants for applicants who achieve LEED Certified ($20,000 for Silver, $25,000 for Gold and $30,000 for Platinum). $1000 per unit. PWP’s Pasadena LEED Certification Program offers $15,000 grants for applicants who achieve LEED Certified ($20,000 for Silver, $25,000 for Gold and $30,000 for Platinum).

PORTSMOUTH, NH
density bonus
Through an update in its zoning ordinance on April 4, 2007, the City Council of Portsmouth adopted a density bonus (see page 90) for private projects that use LEED. In Central Business [district] A, projects benefit from a 0.5 increase in Floor Area Ratio that meet appropriate open space requirements and that also build to a minimum of LEED Certified.

SAN DIEGO, CA
expedited permitting
free technical assistance
In addition to its public sector adoptions, in 2002 San Diego developed the Sustainable Building Expedite Program that uses LEED criteria and provides significant plan review and construction incentives. Private sector buildings registering for LEED certification may be eligible to receive technical green building training, support, and education. Commercial projects achieving LEED Silver certification will benefit from expedited discretionary processes.

SAN FRANCISCO, CA
expedited permitting
On September 28, 2006, the Director of the San Francisco Planning Department issued Director’s Bulletin 2006-02 giving priority permit review to all new and renovated buildings that achieve LEED Gold certification.

SANTA MONICA, CA
grant
expedited permitting
In April 2004, the city launched the Santa Monica Green Building LEED Grant Program that provides a financial incentive for private developers who achieve LEED certification. In August 2005, the city passed an ordinance allowing LEED registered projects to receive expedited
permitting. This includes all LEED for New Construction, Homes, Core and Shell. See Santa Monica’s Green Building Program website for a comprehensive overview of the City’s green building initiatives.

SEATTLE, WA
grant
density bonus
As of 2002, the city of Seattle encourages the private sector to incorporate LEED design standards into new and existing buildings by providing grants for qualifying projects. On April 12, 2006, Mayor Nickels signed zoning legislation that gives a height or density bonus to commercial or residential projects that achieve at least LEED Silver certification and contribute to affordable housing.

SAN ANTONIO, TX
fee reduction/waiver
On June 15, 2006, the San Antonio City Council adopted Ordinance #2006-06-15-0722 that approves Phase II of the City’s Incentive Scorecard System and authorizes administrative waiver or reduction of certain development fees for projects reaching specified scores from the scorecard. Points are awarded for projects achieving LEED-NC or LEED for Homes certification.

SARASOTA COUNTY, FL
fee reduction
expedited permitting
fast-track permitting
On March 18, 2005 the county passed a resolution mandating that all government county buildings be LEED certified. Additionally, the county is providing a fast-track building permit incentive and a 50% reduction in the cost of building permit fees for private contractors who use LEED. On August 22, 2006, the county approved a Green Development Incentive Resolution (#2006-174) that provides fast-track permitting for residential and commercial green developments. Incentives apply to projects pursuing LEED for Neighborhood Developments (ND) or FGBC Green Development Standards.

SUNNYVALE, CA
density bonus
On January 26, 2004, the City of Sunnyvale adopted Ordinance #2002-0076, updating the city’s building codes in areas zoned for industrial use to allow a density bonus of 5% FAR for buildings that achieve a minimum of LEED Certified. The municipal code improvement can be found under Title 19.32.075 of the Sunnyvale Municipal Code.
WASHINGTON, DC
grant
expedited permitting
Bill #B16-0515 also called on the mayor to establish an incentive program for private residential and commercial buildings. Incentives will include an expedited permit review and may also include grants. The mayor will also establish a Green Building Fund for technical assistance and monitoring of green buildings, education, and incentive funding for private buildings.

WEST HOLLYWOOD, CA
free technical assistance
On July 16, 2007, the City Council of West Hollywood passed the Green Building Requirements and Incentives for Private Development with an ordinance requiring residential and commercial projects to meet minimum energy conservation and renewable energy requirements. The Ordinance also calls for the establishment of a Green Buildings Resource Center at West Hollywood City Hall.

STATES

HAWAII
expedited permitting
The Hawaii state legislature amended its provisions to Hawaiian counties with HRS 46 19.6, requiring priority processing for all construction or development permits for projects that achieve LEED Silver or equivalent.

MARYLAND
tax credit
In October 2001, Maryland’s governor issued an Executive Order calling for all capital projects greater than 5,000 square feet to earn LEED certification. In April 2005, the Maryland House and Senate passed legislation requiring that a green building standard, such as LEED (Silver), be used for state capital projects. The state also approved a green building tax credit for commercial developers.

MINNESOTA
free technical assistance
On May 25, 2007, Governor Pawlenty signed into law the Next Generation Energy Act of 2007 setting a roadmap towards a smarter energy future and requiring utilities provide technical assistance for commercial or residential projects that incorporate green building principles in their construction. By December 31, 2010, the Act established a goal of 100 commercial buildings achieving LEED certification, or equivalent, by December 31, 2010.

NEW YORK
tax credit
low interest loans
In June 2001, New York Governor Pataki issued Executive Order #111 encouraging state projects to seek LEED Certification. The New York State Energy Research and Development
Authority will be offering an incentive for design teams of any New York State building that achieves a LEED rating. NYSERDA’s New Construction Program offers a 10% increase on incentives for energy efficiency measures that reduce the use of electricity. NYSERDA provides low interest loans (4% below market rate) for energy efficiency measures and building materials that meet LEED or other generally accepted green building standards. The New York State Green Building Tax Credit Program provides a tax incentive to commercial developments incorporating specific green strategies informed by LEED.

OREGON
tax credit
Oregon’s LEED Business Energy Tax Credit (BETC), administered by the state Office of Energy, is tied to the level of LEED certification achieved. LEED for New Construction, Core and Shell, or Commercial Interiors projects achieving a minimum Silver certification will be eligible. Projects must also meet certain technical requirements.

PENNSYLVANIA
grants
Four state funds including the $20 million Sustainable Energy Fund provide grants, loans and "near-equity" investments in energy efficiency and renewable energy projects in Pennsylvania. In July 2005, the Pennsylvania State legislature passed House Bill 628, amending the Public School Code to provide a financial incentive to public school districts that achieve LEED Silver certification
