1 Meeting Goals
   • Identify elements of a vision for the future of Eisenhower West

2 Imagining the Future Visioning Exercise

Attendees participated in an open group discussion regarding how they envision Eisenhower West in 10-20 years. A few questions were posed, including:
   • What do you like about Eisenhower West now?
   • What can be improved?
   • What are some things you’ve seen in other areas/cities that you like?
   • What will drive change?

The above graphic recording, drawn by artist Jim Nuttle, is a summary of the discussion. Below is a list of issues by topic raised during the exchange.

Transportation/Connectivity
   • Plan for increased multi-modal transportation and connectivity throughout the EW area; possibly widen roads; increase number of walkways and dedicated bike lanes; include safe and visible crosswalks
   • Protect surrounding neighborhoods from increased traffic
• Off-load Van Dorn traffic
• Build Eisenhower connector or provide alternative
• Study current traffic patterns
• Van Dorn Metro is currently underutilized; create ways to increase use by:
  o Putting density where it can be effective - include residential units above/around metro (affordable and market rate)
  o Including parking at Van Dorn and Eisenhower stations
  o Constructing a turn-around for buses
  o Increasing walkability to/from the metro
  o Repurposing land near station to generate more business/residential units

**Environmental Concerns**
• Be cautious of introducing more pavement to the environment
• Increase in traffic equals increase in pollution
• Consolidate some of the rail lines; consider putting them underground
• New development needs to be respectful of area’s environmental challenges – contaminated soils, wetlands, flood plain, etc.

**Residential/Commercial/Industrial Land Uses**
• Design for high density
• Make sure there’s a balance between residential, business, and light industrial needs and uses
• Create economic sustainability by maximizing uses
• Make EW attractive for both new and existing business; incentives for new business; preserve jobs that are currently there
• Consider high density and mixed use:
  o Example: redevelop part of light industrial area and build a Whole Foods with 4 stories of residential units above, surrounded with boutique stores – this could serve as catalyst for rest of area
  o Example: East Carlyle area – perhaps EW would complement that
• Seek interim/temporary big box retail (similar to Potomac Yard) to bring people to the area– Petco, Sports Authority, gas station, grocery store
• Create opportunities for signature destination retail like the Mosaic District
• Keep some portion of light industrial; helps to keep area from being too dense
• Consider redeveloping Vulcan Stone and Virginia Paving areas

**Parks/Open Space**
• Include places that we gather in; keep open park space– preserve passive activity
• Create/maintain park space for families that is walkable/easily accessible
• Do not build a connector through Ben Brenman Park

**Entertainment**
• Plan for both day and night time uses
• Include restaurants with café seating along natural features like Backlick Run
3 Visioning Unique Places Breakout Stations
For the second visioning exercise, participants were provided with round stickers to indicate preferences regarding designated sub-areas within the Eisenhower West plan (see map of 4 sub-areas below). For each sub-area, participants were asked to mark preferences with their stickers in three key topic areas: Land Uses and Building Heights, Parks and Public Spaces, and Amenities and Streetscape Elements.

- Sub-Area 1: West of Van Dorn, North and South of Railroad Tracks
- Sub-Area 2: East of Van Dorn, North of Railroad Tracks
- Sub-Area 3: East of Van Dorn, South of Railroad Tracks, Including Metro Station
- Sub-Area 4: South of Railroad Tracks

The following pages include images of the completed boards and the summary of sticker distributions for each image within topic areas. Note that stickers placed in areas that did not correspond to the appropriate color were still counted in the total numbers listed.

Click the links below to skip to the tally of responses:
- Sub-Area 1
- Sub-Area 2
- Sub-Area 3
- Sub-Area 4
Sub-Area 1: West of Van Dorn, North and South of Railroad Tracks
Please place dots to tell us what types of Parks and Public Spaces are Your Priorities for Sub-Area 1?

Sub Area 1

Civic Plaza  Passive Green Space  Athletic Fields  Pocket Park  Community Gardens  Trails and Pedestrian Connections  Bicycle Facilities

Stream Access  Pools and Water Features  Dog Parks  Playgrounds  Fitness Courses  Farmers Market  Other Ideas?

Community Meeting #2: Visioning
July 28, 2014
**Sub-Area 2 Preferences**

- **Land Uses**
  - Retail/Neighborhood Services: 29
  - Restaurants: 21
  - Residential: 17
  - Light Industrial/Warehouse: 12 *Note: Include heavy industrial*
  - Senior Living: 11
  - Office: 9
  - Civic-Library/Rec Center: 10
  - Retail-Large Format: 6 *Note: Target, Trader Joes*
  - Entertainment: 7
  - Hotel: 5
  - Education-Schools/Daycare: 4

- **Building Height**
  - Mid-Rise: 21
  - Low-Rise: 11
  - High-Rise: 4 *Note: 1 crossed out*

- **Parks and Public Spaces**
  - Trails and Ped Connections: 25
  - Bicycle Facilities: 16
  - Playgrounds: 14
  - Civic Plaza: 12
  - Passive Green Space: 11
  - Community Gardens: 10
  - Stream Access: 9
  - Farmers Market: 9
  - Athletic Fields: 8
  - Dog Parks: 6
  - Pocket Park: 5
  - Other: 4 *Note: Art park, public performance event sites*
  - Fitness Courses: 3
  - Pools and Water Features: 2

- **Amenities and Streetscapes**
  - Connectivity: 28 *Note: Not just pedestrian crosswalks*
  - Street Trees: 20
  - Transit Access: 19
  - Outdoor Café Seating: 18
  - Sustainable Landscape/Streetscape: 11
  - Street Lighting: 9
  - Public Art: 7
  - Fountains and Splash Pads: 6
  - Benches and Seating: 5
  - Signage/Wayfinding: 5
  - Trash and Recycling: 4
  - Kiosks- Coffee/ Snacks: 3
  - Kiosks- Information/Newspaper: 1
  - Other: 0 *Note: What is ideal density?*
Sub-Area 3: East of Van Dorn, South of Railroad Tracks, Including Metro Station
Please place dots to tell us what types of Parks and Public Spaces are Your Priorities for Sub-Area 3?
Images below are examples only.

Community Meeting #2: Visioning

• **Sub-Area 3 Preferences**
  o **Land Uses**
    ▪ Residential 26
    ▪ Office 23
    ▪ Restaurants 17
    ▪ Hotel 13
    ▪ Retail/Neighborhood Services 10
    ▪ Retail-Large Format 9
    ▪ Entertainment 9
    ▪ Light Industrial/Warehouse 9
    ▪ Senior Living 8
    ▪ Civic-Library/Rec Center 4
    ▪ Education-Schools/Daycare 1
  o **Building Height**
    ▪ High-Rise 25
    ▪ Low-Rise 6
    ▪ Mid-Rise 4
  o **Parks and Public Spaces**
    ▪ Trails and Ped Connections 32
    ▪ Civic Plaza 18
    ▪ Bicycle Facilities 17
    ▪ Passive Green Space 13
    ▪ Pocket Park 13
    ▪ Stream Access 12
    ▪ Dog Parks 5
    ▪ Athletic Fields 4
    ▪ Pools and Water Features 4
    ▪ Playgrounds 4
    ▪ Fitness Courses 4
    ▪ Community Gardens 3
    ▪ Farmers Market 1
    ▪ Other
  o **Amenities and Streetscapes**
    ▪ Connectivity 27
    ▪ Transit Access 24
    ▪ Outdoor Café Seating 18
    ▪ Street Trees 14
    ▪ Sustainable Landscape/Streetscape 13
    ▪ Street Lighting 11
    ▪ Public Art 6
    ▪ Fountains and Splash Pads 6
    ▪ Benches and Seating 5
    ▪ Trash and Recycling 3
    ▪ Signage/Wayfinding 2
    ▪ Kiosks- Coffee/Snacks 2
    ▪ Kiosks- Information/Newspaper 1
    ▪ Other 1
      
      Note: Urban-style canal walk, not just bike trail; get out of commute, too much industrial use

      Note: More facilities at Van Dorn Metro

      Note: Replace Victory Center
Sub-Area 4: South of Railroad Tracks
Please place dots to tell us what types of **Parks** and **Public Spaces** are Your Priorities for Sub-Area 4.

Community Meeting #2: Visioning
July 28, 2014
Please place dots to tell us what Amenities and Streetscape Elements are Your Priorities for Sub-Area 4.

Images below are examples only.
• **Sub-Area 4 Preferences**
  - **Land Uses**
    - Residential: 19
    - Office: 18
    - Retail/Neighborhood Services: 13
      - Retail-Large Format: 11
    - Restaurants: 11
    - Light Industrial/Warehouse: 9
    - Entertainment: 7
    - Civic-Library/Rec Center: 7
    - Senior Living: 6
    - Education-Schools/Daycare: 4
    - Hotel: 2
  - **Building Height**
    - Mid-Rise: 15.5
      - Note: 4.5 stories
    - High-Rise: 14.5
      - Note: A few high rise
    - Low-Rise: 6
      - Note: Lower on smaller residential streets
  - **Parks and Public Spaces**
    - Trails and Ped Connections: 29
    - Stream Access: 16
    - Bicycle Facilities: 14
    - Passive Green Space: 12
    - Civic Plaza: 8
    - Dog Parks: 8
    - Athletic Fields: 7
    - Pocket Park: 7
    - Community Gardens: 6
    - Playgrounds: 6
    - Farmers Market: 5
    - Pools and Water Features: 3
    - Fitness Courses: 1
    - Other
  - **Amenities and Streetscapes**
    - Connectivity: 26
    - Street Trees: 21
    - Sustainable Landscape/Streetscape: 15
    - Transit Access: 15
    - Outdoor Café Seating: 12
    - Signage/Wayfinding: 10
    - Street Lighting: 9
    - Benches and Seating: 3
    - Public Art: 2
    - Kiosks- Coffee/Snacks: 2
    - Trash and Recycling: 2
    - Fountains and Splash Pads: 1
    - Kiosks- Information/Newspaper: 0
      - Note: 1 crossed out
    - Other: 0
4 **Preserve, Enhance, and Transform Activity**

The third visioning exercise asked participants to mark any places that should be preserved (red stickers), enhanced (yellow stickers), or transformed (green stickers) in the Eisenhower West plan area. They were also encouraged to share any thoughts or ideas on the adjacent poster board.

- **Sub-Area 1:** Most participants want this area to be transformed or enhanced in some way with a few parcels focused on preservation.
- **Sub-Area 2:** Within Cameron Station, the preference was for preserving the area, while outside of Cameron Station, the focus was on enhancing and transforming businesses along Pickett Street.
- **Sub-Area 3:** Participants generally want to see transformation or enhancement around this area with the exception of Summers Grove.
- **Sub-Area 4:** This area had a mix of preservation in Clermont Cove, enhancement of Hensley Park, and transformation along Eisenhower Avenue.
- **Parks:** Participants want to see a mix of preservation and enhancement within the major parks in the area. Ben Brenman Park and Armistead Boothe Park received mostly preservation stickers, while Hensley Park received mostly enhancement stickers.
Text from PET Board Above:

- Preserve: What do you love ‘as is’?
  - You have little or no choice but to preserve since all the property being assessed for change belongs to private citizens
  - Ben Brenman Park – preserve intensity, mix of use

- Enhance: What needs a little help?
  - Give metro access from Vine Street
  - Connect Duke and Eisenhower (Connector)
  - Pedestrian/Bike across Backlick Creek and railroad
  - Summers Grove – nice for people who live there, kills street because it is so walled off
  - Pull Backlick out of concrete and naturalize!

- Transform: Where do you want to see a major change?
  - Put an elementary school and park on South Pickett in Sub-Area 1 to ease overcrowding in schools
  - Areas around metro station
