### **Interactive Keypad Polling Exercise**

Each participant will be given a keypad that they will use to respond to a series of questions, including yes/no questions related to the Guiding Principles and Working Draft Framework Plan presented. Responses will be shown in real time. We also encourage additional written comments.

### **Interactive Preference Exercise**

Staff will present a series of options related to open space, transportation and an arts district concept. After the options are presented, each participant will be given three sets of dots that they may place on the posters on the wall to indicate their preference for a given option or options. They can use none, some or all of their dots on any given option. There are also post-it notes available for additional written comments.
