

PYPAG Groundrules

- We recognize that the most powerful outcome for the community is for us to find common ground and we will support each other and the process in that goal.
- Everyone will be heard and we will listen to each other with respect and open minds.
- We will each take responsibility to ensure that our ideas and concerns are clearly presented at the meetings.
- We will work as a group to become fully informed of issues and to discuss the full ramifications of choices before we develop conclusions or advice.
- We will work to keep the broader community informed and engaged in the process.
