

## **What has been the response to the Plan from Alexandria's appointed boards and commissions?**

*The Waterfront Plan has been endorsed by many of the City's appointed boards and commissions.*

The City's appointed boards and commissions are composed of Alexandrians representing varied interests across the entire city. The draft Waterfront Plan has been endorsed by the Parks and Recreation Commission, the Alexandria Economic Development Partnership, the Alexandria Convention and Visitors Association, the Alexandria Commission on the Arts, and the Alexandria Waterfront Committee. The history elements have been endorsed by the Historic Alexandria Resources Commission and the Alexandria Archaeology Commission. In many cases, the endorsements come with suggestions for improving the Plan or suggestions for implementing the Plan once it is adopted. A number of these suggestions have been addressed in the Plan approved by the Planning Commission and now before the City Council.
