“Landmark Mall is currently the most-used non-Metrorail station transit location in the City of Alexandria, reflecting its importance in the public transportation system as both a transit destination and a transit transfer point.”
-2009 Landmark Van Dorn Corridor Plan

WHAT IS AN ON-STREET BUS TERMINAL?
• Series of bus stops along an urban street that allows for fluid service of multiple transit lines
• Provides enhanced boarding areas
• Improves accessibility and performance
• Regional Examples:
  • Market Square in Alexandria
  • McPherson Square in Washington DC

WHY LOCATED WITHIN THE SITE?
• Integration into the urban design
• Easy accessibility to amenities and stores
• Promotes transit streets as a desirable place and mode of transportation
• Safe nighttime environment

Landmark Mall is currently the most-used non-Metrorail station transit location in the City of Alexandria, reflecting its importance in the public transportation system as both a transit destination and a transit transfer point.”
