• The City of Alexandria purchased four properties along Mt. Vernon Avenue abutting Four Mile Run.

• Three of the existing buildings were demolished and the remaining building was kept with the anticipation that it could be modified for public use in support of the Four Mile Run Park.

• At some point, the City determined that funding to rehabilitate the building was not possible and the alternative to demolish the building was contemplated.
A group of design professionals who live and work in Arlington & Alexandria believes that there is a better alternative to demolishing this structure.

The following are ideas of how this building and site can be renovated and reused to turn this otherwise blighted property into a facility that would serve the community and serve as a gateway into the Four Mile Run Park.

We are presenting this unsolicited, pro bono study to the City and Community for consideration.
4 MILE RUN MASTER PLAN
PROPOSAL

● Building to be renovated as a simple, multi-purpose facility.

● Designed as a seasonal, fair-weather, daytime use facility requiring no AC or heating with limited electrical and water service.

● Site work to use recycled materials and designed to be built in phases.
SITE CONCEPT

- Create a new community plaza at the north side as a series of linked “rooms” that can be developed in phases.

- Fence between the site and the recreational field will be removed.

- Gateway marker signposts at each end of the site along Mt Vernon Ave.
BUILDING INTERIOR

- Open north side of building (facing plaza) with large opening for natural ventilation & light.
- Relocate exterior mural into the interior.
- Remove ceiling, paint walls, seal concrete floor slab.
- Renovate Restrooms for ADA compliance.
- Add light tubes and skylights to bring daylight into the interior.
1 Existing DURON Building
Designed to be used as a daytime, seasonal building. It will have no HVAC or lighting except those provided by natural daylight.

It will be designed as a simple enclosure to allow it to be used by the community for any number of purposes:

- Exhibition Space
- Cultural Center
- Community Meeting Hall
- Indoor & Outdoor Performance Venue
- Classroom
- Public Restroom Facility
- Temporary Storage for an Outdoor Market

DURON BUILDING
LEGEND

1. Multi-Purpose Space.
2. Light Tubes to bring in natural light.
3. Relocate existing exterior mural into the interior.
4. Existing Loading Dock & Overhead Door to be used for secondary performance stage.
5. New stepped stage with overhead canopy.
6. Galvanized Metal Water Cisterns serve as structural support for overhead canopy and collect storm water run-off from roof for irrigating landscape.
7. Stage with broad steps that can be used for seating.
8. Banners illustrating 4-Mile Run Master Plan.
9. Art Wall for Community Art
10. White Wall can be used for evening movie screenings.
11. Optional location for Police sub-station if required.

PROPOSED RENOVATION
BUILDING EXTERIOR

- Building painted in bold colors and the walls used as outdoor display space for art & information on the Four Mile Run Master Plan.

- Construct a new stage in front of the north opening with broad risers that can be used for seating.

- Stage is flanked by large corrugated steel cisterns to capture rainwater from the roof to for site irrigation. These tubes will also support a canopy over the stage.

- Loading dock at east-side will be reconfigured for use as secondary stage.
BUILDING AS ART & INFORMATION

LEGEND

2 Building Exterior:
   To be painted in bold colors to mark this building and site as a community activity center.

   Building walls to be decorated with rotating community art either painted directly on the walls or hung as banners.

   Wall facing Mt Vernon Avenue will exhibit images of the 4-Mile Run Master Plan.
POSSIBILITIES
3  Building Loading Dock
   Can be used as a performance stage.
   Adjacent side wall painted white to act as a screen of community midnight movie screenings.

4  Lawn Area
   For picnics and seating for movies and performances.
EXISTING NORTH SIDE
LEGEND

5 New Barn Door & Raised Covered Stage
Can be used as a performance stage.

Steps around stage can be used for seating when stage not used.

Canopy supported by large metal cisterns that will collect rain run-off from the building roof where it will be stored and used for local irrigation.
CISTERNS & STAGE
6 Community Plaza

To be used as a outdoor community living room. It will be designed for multi-purpose uses such as:

- Farmers Market
- Arts & Crafts Fair
- Outdoor Performances
- Cultural Events
- Picnic Area

Designed in 3 outdoor rooms that can be developed in phases.
BANNERS & SIGNPOSTS
NIGHT LIGHTING
NIGHT LIGHTING - TREES
**LANDSCAPE FEATURE**

**LEGEND**

7 Raised Planter Beds  
Designed to be portable and designed to provide seating along the perimeter.  
Can serve as a nursery area cared for by volunteers to grow native plants for replanting in other areas of the Four Mile Run Restoration Area.
RAISED PLANTERS
8 Rain Gardens
Will treat surface water run-off and provide a demonstration area to provide public awareness of environmental sustainability issues.
9  Plaza Paving & New Walkways
Inexpensive, sustainable paving for plaza surfaces and new walkways to connect this facility to the playing field and the Four Mile Run Trail network.
PLAZA PAVING ALTERNATIVES
RECYCLED CONCRETE
LEGEND

10 Entry Markers
Community Art to serve as gateway sign posts that mark the entry to this facility.

10 Art Walk
Additional art pieces can be placed in other locations to designate those areas as an event place or to simply serve as singposts along the trail network.
