Summary
The department is tasked with cost recovery goals in accordance with the City’s annual budget allocation and financial constraints. To that end, the department sets fees and charges in relation to these goals, market conditions, benchmarking, demand, cost recovery targets, and industry trends. A financial assistance policy and process was also developed to allow for maximum resident participation in City Programs and to ensure that no one has a barrier to participation.

Cost Recovery Policy
Recreation, Parks and Cultural Activities Department offers services that are funded through a combination of user fees, taxes, grants, and donations. Fees and charges shall be assessed in an equitable manner in accordance with the following fee and charge assessment schedule. Through a special initiative, services that provide recreational opportunities for populations with the fewest recreational alternatives (youth, limited income, senior adults, and families) may be more heavily supported by grants, donations, or property taxes than user fees to ensure that the population is well served by Recreation, Parks and Cultural Activities programs. Percentages shall be considered as guidelines; however, special circumstances, the nature and cost of each program, and persons to be served should be taken into consideration.

Process
- The Recreation, Parks and Cultural Activities shall conduct an annual comprehensive review of cost recovery targets.
- Programs will be sorted and assigned a cost recovery tier using the Pyramid Methodology annually.
- A Fee Structure/Rate review will be done annually to determine viability of programs.
- Programs plans are developed and approved with fees set within the tier cost recovery target minimum.
- The Department’s Fiscal Year fee schedule will be included each year as part of the annual budget submittal.
City of Alexandria’s Cost Recovery Model

The following model represents all categories of services currently provided or those which may be provided in the future by the Department. It is based upon the degree of benefit to the community (Tier 1 (low end of the pyramid – Mostly Community Benefit) or individual (Tier 5 (Top of the pyramid) – Mostly Individual Benefit); the values of the Alexandria community; and the vision and mission of the Recreation, Parks and Cultural Activities Department. This model and policy forms the basis for setting fees and charges (see Final Cost Recovery Model, Resource Allocation Philosophy, and Policy Document dated January 1, 2013).

**Cost of Services**
The following general definitions will be used to determine the cost of providing all services.

**Direct Cost:** Includes all of the specific, identifiable expenses (fixed and variable) associated with providing a service, program, or facility. These expenses would not exist without the program or service and often increase exponentially.

**Indirect Cost:** Encompasses overhead (fixed and variable) including the administrative costs of the agency. These costs would exist without any of the specific programs or facilities.
