

Award Criteria

All properties are judged on design, sustainability, maintenance, neighborhood context, and use of plant materials, as applicable.

Excellence in Architecture

Awarded for new construction, additions, improvements, and historical renovations.

Excellence in Sustainable Design

Awarded for new construction and improvements for factors such as the use of renewable energy, rainwater capture/filtering, use of native/non-invasive plants, contribution to tree canopy, and contributions to community open space.

Green Practices in Beautification

Award recognizes individual or group efforts that promote sustainability in beautification.

Commercial Beautification

Award recognizes commercial properties that contribute to the beautification of the City through landscaping and architecture.

Community Beautification

Awarded for recognition of public properties or individual or group activities and efforts that promote beautification in the community.

Residential Beautification

Award recognizes homes and residential communities that contribute to the beautification of the City through landscaping and architecture.
