

11.5.10

Dear Glenn,

I have finally found the time to carefully read through the Year End Report. Such great work the group has performed. You all need a pat on the back. Following you will find my few comments.

I will make them by page number.

Page 16 - It would be helpful to have the year stated for the week the count was taken.

Page 18 - I think there is a misspelling - determinate should maybe be deteriorate.

Page 23 - #3, I would include in the examples, Boy Scouts, and Eagle Scout projects. (These are always great resources). #4, Volunteers are always a great thought but I have found many times they are not as reliable as paid resources.

Page 27 - The NoMow issue seems to be a communication issue. A permanent communication plan needs to be established and adhered to.

Page 36 - The request for a gate arm is interesting since there was always one in the past and an employee always made sure it was closed and reminded visitors the park was closing.

Page 40 - The idea of a walking path is terrific. It came to my thoughts that portable players could be used. They could be checked out to give visitors the history of what they are seeing. The Episcopal Seminary is using such a feature. I'm sure they would be happy to offer information on such a program.

Just a suggestion. Maybe moving the playground closer to the playing field would be beneficial. They seem to go together. It might not be possible. Little brother or sister could play on the equipment while older siblings play soccer, etc. Parents could keep an eye on both. Restrooms might serve both places. I would love to see the speed humps removed. Years ago I would walk with my daughter who was on roller skates through the park. It was always so much fun. Nothing wild just gentle skating watching out for walkers. Maybe times have changed and children won't be able to have this experience.

Again, thanks for all of your efforts.

Carolyn Griglione
