FRAMEWORK TEXT

I. INFORMATION (ORGANIZING, GATHERING, UNDERSTANDING):

ACTIONS:
- Define the issue to be explored
  - Develop consensus on what the problem/issue/project is (scope)
  - Identify: issue/cost/benefits/reasons/define process
  - Set project expectations for the community and City
- Identify and engage stakeholders
  - Determine who cares about and/or is affected by the issue (groups and individuals)
  - Get people involved in the engagement process early
  - Educate all
- Establish a clear process/framework for exploring the issue
  - People need to know how issues/projects/plans are developed
  - Develop timeline/outreach framework – what are the major milestones and where can the community have input throughout this process?
  - Clarity - make the process clear and simple
  - Design an outreach strategy that will effectively involve identified stakeholders in exploring the issue.
  - Establish mechanism for mediation around issues
  - Establish mechanism, standards, expectations for answering community questions, responding to input
  - Set standards for moving on to the next phase of the project/issue
- Gather all relevant information
  - Determine relevant facts
  - Involve neutral experts in information gathering
  - Engage community in fact-gathering, in identifying issues, opportunities and concerns, and in identifying vision, goals and objectives, and needs
  - [this idea belongs in the next phase]
- Document completion of information-gathering phase
  - Definition of issue
  - Identity of stakeholders
  - Planning and engagement process and how/why it was selected
  - Compendium of verbatim input from all sources
  - Summary of facts, issues, community vision and goals clearly linked
- Schedule work session or other public event to discuss/mark movement to next phase
ENGAGEMENT TOOLS: Tools that (1) get the word out about the project or issue to stakeholder groups and individuals and (2) are designed to gather facts, information, perspectives, vision and goals.

- Community Meetings: one or more meetings focused on this issue, typically small group discussions with emphasis on information gathering from participants
- Participation in other community-wide events: booths, tables or announcements at events that are primarily for other purposes (such as Earth Day or farmer’s market).
- Surveys: mail or online, self-selected or statistically valid, to understand perspectives of stakeholders (in languages of stakeholder groups)
- Online engagement: crowdsourcing activities
- Social networking: emails, bulletin boards and listservs, online videos, to get the word out to stakeholder groups and individuals
- Door-to-door: flyers, door knocking & face-to-face discussions
- Phone calls
- Expert panels, community focus groups and studies
- Status reports
- News media

Minimum/maximum # of meetings: Up to 3 community meetings. The phase may conclude with a report to Council or relevant board or commission (such as Parks and Recreation Commission, Planning Commission, etc) marking transition from this phase to next.

II. DEVELOP AND EVALUATE OPTIONS

ACTIONS:

- Develop options
  - Continued discussion
  - Distill realistic options - be transparent about this step
  - Stakeholders develop options and THEN bring to City
  - Present best practices (perhaps have a public call for other options)
- Evaluate options
  - Make sure that there is broad outreach in understanding of community options
  - Continue education about the issues
  - Establish decision-making criteria
  - Provide ‘impacts’ of different proposals, including budgetary impacts
  - Provide in-person and online mechanism for stakeholders to participate in evaluating options
• Document completion of “develop and evaluate options” phase
  o Define options
  o Document how options were developed
  o Describe evaluation criteria and process
  o Document results of community evaluation of options
  o Publish report for public review and comment; work with local news media and social media to publicize
• Schedule work session or other public event to discuss/mark movement to next phase

ENGAGEMENT TOOLS:
• Community Meetings: featuring activities to facilitate community evaluation of options, such as small group discussion and clicker voting
• Online engagement: activities to facilitate community understanding and evaluation of options such as Q&A comment board
• Social networking: to get the word out about the options and the opportunities to evaluate them
• News media
• [if used, belongs in previous phase] Expert analysis
• Status reports

OFFICIAL PUBLIC TOOLS:
• Public hearings
• Q&A Forums

Minimum/maximum # of meetings: Up to 3 community meetings. The phase may conclude with a report to Council or relevant board or commission (such as Parks and Recreation Commission, Planning Commission, etc) marking transition from this phase to next.

III. RECOMMENDATIONS

ACTIONS:
• Development of initial recommendations
  o Staff prepares initial recommendations based upon options, evaluation criteria, and results of community evaluations in previous phase.
  o Staff publishes and publicizes initial recommendations report, including “How we got here...”
• Public engages in discussion, modification of recommendations
  o Open discussion of staff recommendations, public should be involved in making recommendations
  o Open decision-making
  o Have a dialog/allow community to take part in recommendation selection: opportunity for questions and answers, modifications to recommendations based upon community feedback, consideration of alternative recommendations suggested by community
  o Online and in-person activities
  o Documentation of all questions, answers, feedback
  o Follow up if there are delays
• Consideration of final recommendations
  o Staff prepares and releases final draft plan/report/set of recommendations for the formal approval process
  o Have a dialog with community about recommendations: opportunity for questions and answers, feedback, modifications to recommendations based upon community feedback,
  o Documentation of all questions, answers, feedback
  o Public hearing, discussion and vote by relevant board or commission(s)
  o Public hearing, discussion and vote by City Council.

ENGAGEMENT TOOLS:
• Community Meetings: featuring activities to facilitate community understanding of recommendation(s) and community evaluation of recommendation(s), such as small group discussion and clicker voting
• Online engagement: activities to facilitate community understanding and evaluation of recommendations, such as Q&A comment board
• Social media and news media: to get the word out about recommendations and schedule/process of final consideration by public officials

OFFICIAL PUBLIC TOOLS:
• Public hearings
• Q&A Forums

Minimum/maximum # of meetings: Up to 3 community meetings, plus public hearings
IV. IMPLEMENTATION AND MAINTENANCE

ACTIONS:

- Continued discussion
  - Establish interagency/intergovernmental implementation team
  - Establish schedule and process for implementation, including timeline of milestones and outreach framework
  - Conduct site visits and provide other opportunities for the public to interact in implementation process

- Designate a “point person”
  - Agency/government department single point of contact
  - Create web page or portal to facilitate communication about next steps and progress

- Monitor and report progress
  - Evaluate implementation, make adjustments, and notify the public
  - Follow up if there are delays
  - At regular intervals, communicate progress

ENGAGEMENT TOOLS:

- Progress reports
- Timeline to completion

Minimum/maximum # of meetings:
