Please take a moment to answer the following questions in order to help us make the best use of your time, support each participant, learn from you, and facilitate the most productive outcome.

1. What are your concerns?

Decisions come down from the top. A citizen has to work to hard to get info in a timely fashion to affect outcome. Council needs to postpone voting until some days or weeks after second reading, so that public comments can have meaningful impact (they already have minds made up, so testimony is futile)

2. Do you have suggestions for improvements?

Start protecting and preserving neighborhoods again.
Involve citizens early in decisions.
To involve more citizens, public notices + mailings will help (not everyone is online in 2013)
More transparency.

3. How would you explain in 2 sentences what we have accomplished at this meeting?

We vented a lot of disappointment and anger toward elected officials, staff, + consultants, but feel it won't make any difference.

Please list one idea that occurred to you as a result of the exercises and presentation
