June 8, 2010

Dear Sir/Madam:

The City of Alexandria Department of Transportation and Environmental Services (T&ES) is planning to resurface King Street, between Columbus Street and the King Street Metro. The scope of the King Street improvement project will begin with concrete improvements to the curb & gutter, ADA accessible ramps at crosswalks, and will end with milling and overlay of the existing pavement. The City is holding a public meeting at City Hall Sister Cities Conference Room 1101 on June 28, 2010 at 7:00 p.m. to provide an overview of the project and answer questions.

The project is scheduled to begin in July 2010. The City will work to minimize impacts and disruption to the residents and businesses within the construction project area. However, on street parking on King Street will be temporarily impacted in a phased manner as the work proceeds. Milling and paving activities will occur during the hours of 8:00 p.m. to 5:00 a.m. Sunday – Thursday. The resurfacing project is scheduled to be completed by the end of October, weather permitting.

Please share the information about the King Street Paving Project with your neighbors and organization. If you have any questions, please contact me at (703) 746- 4049, or rashad.friday@alexandriava.gov .

Sincerely,

Rashad K Friday, MBA, MS
Civil Engineer III
