

PROJECTS

No.	Name	Description	Source	Category	Mode	Cost	Estimated Start	Status	Relationship to Other Initiatives	Notes
1	Pedestrian / Bicycle connection from Potomac Yard to Four Mile Run Trail	Provide a future pedestrian/bicycle connection from Landbay K to the Four Mile Run trail	Potomac Yard SAP	Project	Bicycle	\$1-5 million	5-10 years	Not Started	Yes	
2	Potomac Yard Intermodal transit center	In conjunction with other public agencies, a new intermodal transit center shall be constructed proximate to the new Metrorail station	Potomac Yard SAP	Project	Transit	\$1-5 million	5-10 years	Not Started	Yes	
3	Van Dorn Street bridge widening	Widening of Van Dorn Street over Duke Street to accommodate pedestrians		Project	Pedestrian	More than \$5 million	5-10 years	Not Started	Yes	At time of long term (Phase 2) development of Landmark Mall or Van Dorn Street reconstruction
4	Bicycle Parking at Waterfront	Provide additional bicycle parking on the waterfront in Oronoco Bay Park and near the foot of King Street with more racks and/or covered bicycle shelters.	Waterfront SAP	Project	Bicycle	Less than \$1 million	1-5 years	Not Started	No	
5	Corridor A Circulator Transit Service	Provide scale appropriate Circulator transit service in Corridor A south of Braddock Road Metrorail station that focuses on east-west connectivity between the existing Metrorail stations and Old Town.		Project	Transit	\$1-5 million	1-5 years	Not Started	No	
6	West End Transit Shop	Construct a new transit shop on the west end of Alexandria to support transit, alternative transportation and non-Single Occupancy Vehicle (SOV) travel	TDM Plan	Project	Transit	Less than \$1 million	5-10 years	Not Started	Yes	
7	Eisenhower Avenue Metrorail Platform Extension	Construction of station entrance north of Eisenhower Avenue as development occurs to provide direct pedestrian access to the station without the crossing of Eisenhower Avenue.	1992 TMP	Project	Transit	More than \$5 million	1-5 years	In Progress	Yes	The Eisenhower Avenue Metro Station can only be accessed from the South side of Eisenhower Avenue, but a great deal of existing and future development is taking place on the north side of this street—much of it federal office space. Not only is the existing limited station access unsafe; it discourages transit use. The City has received over \$2 million in federal funding to begin to plan for the reconfiguration and expansion of the platform of this station to the north side of Eisenhower. The City estimates that over \$16 million in additional funding is needed. City Council directed staff not to pursue this project at this time.
8	Pedestrian improvements at King Street and waterfront area	Limit vehicular access to the unit block of King Street and the Strand, between Prince and King Streets, to emergency vehicles, deliveries (limited hours), motorcoaches and the King Street trolley. The Strand would also be open to vehicles accessing the parking garages and lots that have entrances on this block. In addition, enlarge the pedestrian hub at King Street and Union Street. Consider eliminating on-street parking along the unit block of King and at the immediate intersection of King and Union Street.	Waterfront SAP	Project	Pedestrian	Less than \$1 million	5-10 years	Not Started	No	
9	Bradlee Transit Center	Construction of the Bradlee Transit Center. The project will provide bus facilities for a number of bus routes serving the area. The improvements will include bus shelters and enhanced service information, bus circulation, bicycle parking and transit amenities.	TDM Plan	Project	Transit	Less than \$1 million	1-5 years	Not Started	Yes	Enhanced bus shelters are being constructed in conjunction with the redevelopment of the Safeway site adjacent to the station.
10	Transit Corridor A – Transitway from Braddock Road to King Street	Construction of extension of CCPY Transitway south of Braddock Road to connect to King Street station	2008 TMP	Project	Transit	\$1-5 million	5-10 years	Not Started	Yes	This project was identified in the 2008 Transportation Master Plan. In 2012 the High Capacity Transit Corridor Workgroup (CWG), Transportation Commission (TC), Planning Commission (PC) and City Council recommended that the Braddock Road Metrorail Station be the southern terminus of Corridor A. The portion of Corridor A south of Braddock Road remains on the LRP as an unfunded capital project. Consistent with the CWG, TC, PC and Council approval, a Circulator bus service project has been added to the LRP as a new project.
11	Van Dorn at Braddock Road Intersection Improvement	Replace the shared thru/left turn lanes along NB and SB Van Dorn Street with separate left turn lanes - One left, one thru and one shared thru/right lane for both NB and SB directions. Add protected/permissive left turn phasing along NB and SB Van Dorn Street.	Beauregard SAP	Project	Streets	\$1-5 million	5-10 years	Not Started	Yes	
12	Beauregard Street at W. Braddock Road Intersection Improvement	Change dual left to single left on westbound Braddock Road and replace the left-turn lane with a thru lane.	Beauregard SAP	Project	Streets	\$1-5 million	5-10 years	Not Started	Yes	

No.	Name	Description	Source	Category	Mode	Cost	Estimated Start	Status	Relationship to Other Initiatives	Notes
13	Quaker Lane at Seminary Road/Janneys Lane Intersection Improvement	Provide dual northbound Quaker Lane left turn lanes onto Seminary Road, and provide a dedicated right turn lane for eastbound Seminary Road.		Project	Streets	\$1-5 million	1-5 years	Not Started	Yes	This intersection capacity improvement project is needed to accommodate current and future BRAC related traffic. The EB Seminary Road approach to this intersection has been a standing issue because both right turning and through traffic share a single lane. The high volume of right turning vehicles overloads this lane creating operational problems and queues. This problem is expected to worsen as BRAC becomes fully occupied and the west end further develops. In the 1990's a project was funded as part of the "Tell it To City Hall" program to address the eastbound Seminary Road problem. Due to budget cuts and other priorities this project never materialized. The northbound Quaker Lane left turn movement is very heavy and the queue of left turning traffic many times extends into the through lanes. The performance of this movement is expected to further degrade as BRAC becomes fully occupied and further development occurs in the west end of Alexandria.
14	Construct Holland Lane Extension	Extension of Holland Lane south from Eisenhower Avenue to Old-Cameron-Run Channel	Eisenhower East SAP	Project	Streets	More than \$5 million	10+ years	Not Started	No	The Holland Lane extension is being constructed by the adjacent development. It will be a private street with a public access easement.
15	I-395 access to West End Town Center	Direct access from I-395 ramps to West End Town Center	Landmark/Van Dorn SAP	Project	Streets	More than \$5 million	10+ years	Not Started	Yes	
16	Clermont Interchange with I-95 and connection to Eisenhower Avenue	Study or consider this interchange and the connecting roadways that will improve access to the Cameron Valley and the Eisenhower Corridor	Eisenhower East SAP	Project	Streets	More than \$5 million	10+ years	Not Started	No	The City Council recognized the critical need for improved access to the Eisenhower Valley and requested that the State investigate a connection between I-95 (the Capital Beltway) and Eisenhower Avenue. The project will need to undergo an update of environmental analysis to determine the project viability.
17	South Van Dorn Street Improvements at the City Limits	Construction of an additional lane to the southbound roadway from the Metrorail access ramp to the I-95 interchange. An additional lane should be added to the northbound roadway from the I-95 interchange to the Metro access ramp.	1992 TMP	Project	Streets	More than \$5 million	5-10 years	Not Started	No	This action will provide improved access to and from the Van Dorn Metrorail Station and the Eisenhower Valley.
18	Construct Elizabeth Lane extension	Extend Elizabeth Lane (to be called Eisenhower Park Drive) from Eisenhower Avenue south and east to Limerick Street.	Eisenhower East SAP	Project	Streets	\$1-5 million	10+ years	Not Started	Yes	Project to be completed as part of Hoffman warehouse parcel redevelopment.
19	Edsall Road Connector to Farrington Avenue and South Pickett Street	Construction of new roadway along the Fairfax County line to connect Edsall Road, South Pickett Street, and Farrington Avenue to relieve traffic congestion on sections of South Van Dorn Street and to provide direct access to the Eisenhower Avenue corridor and the Van Dorn Street Metrorail Station.	1992 TMP	Project	Streets	More than \$5 million	10+ years	Not Started	Yes	As development takes place in Alexandria or Fairfax County between Edsall Road and Pickett Street or along Farrington Avenue. To be further evaluated in Eisenhower West Plan.
*	Prince Street / Cameron Street Bicycle Lanes	Construction of new protected bicycle lanes (cycle track) on both Prince Street and Cameron Street within Old Town. Would require removal of one travel lane and new signals.	Complete Streets Policy	Project	Bicycle	Less than \$1 million	5-10 years	Not Started	No	Identified as Complete Streets project consistent with City's Complete Streets policy
*	Library Lane Extension	Extend Library Lane north of Seminary Road to connect to Van Dorn Street. This project would tie to the improvement of Library Lane on the south side of Seminary Road, as part of the Home Properties redevelopment.	Beauregard SAP	Project	Streets	\$1-5 million	5-10 years	Not Started	Yes	Project may be dependent on redevelopment within the block / area.
*	Royal Street Bicycle Boulevard	Construct bicycle Improvements along Royal Street between Jones Point and Bashford Street, that may include signage, traffic calming and other measures to improve north-south bicycle travel within Old Town.	2008 TMP	Project	Bicycle	Less than \$1 million	1-5 years	Not Started	No	Project was recommended in the Pedestrian and Bicycle Master Plan, and the Union Street Corridor Study.
*	Glebe Road bridge	Demolish existing W. Glebe Road vehicular bridge over Four Mile Run and portions of W. Glebe Road, and construct a new vehicular bridge to the east (aligned with Valley Drive), and realign W. Glebe Road.	Four Mile Run Plan	Project	Streets	\$1-5 million	10+ years	Not Started	Yes	
*	Four Mile Run pedestrian bridge	Construct new pedestrian/bicycle bridge over Four Mile Run where existing W. Glebe Road vehicular bridge (to be demolished) is located.	Four Mile Run Plan	Project	Bicycle	Less than \$1 million	10+ years	Not Started	Yes	
*	Commonwealth Avenue nonmotorized bridge	Construct new pedestrian/bicycle bridge over Four Mile Run to link Commonwealth Avenue to S. Eads Street.	Four Mile Run Plan	Project	Bicycle	Less than \$1 million	5-10 years	Not Started	Yes	This project is identified as a demonstration project in the Four Mile Run Plan
*	New Road to Four Mile Run Park	Construct a new road from Route 1 to Four Mile Run Park.	Four Mile Run Plan	Project	Bicycle	\$1-5 million	10+ years	Not Started	Yes	

* These projects are proposed for the 2013 update to the LRP and have not been prioritized
