Re: Transportation Commission's Endorsement of the Potomac Yard Metro DSUP

Dear Mayor Silberberg and Members of City Council:

At its May 18, 2016 meeting, the Alexandria Transportation Commission reviewed the project submission for the Potomac Yard Metrorail Station, as well as associated park improvements to Potomac Yard Park and Potomac Greens Park. The Commission unanimously endorsed the design of the station and park improvements as shown in the development application, recording two abstentions from the Transportation Commission's representatives from the Planning Commission who will take action at a later date in service of the City's Planning Commission.

The Transportation Commission appreciates Council's continued support for multimodal improvements within the City as it is consistent with the vision of the City's Transportation Master Plan. The Commission thanks Council for the consideration of its input.

Sincerely,

J.J. King III
Chair, Alexandria Transportation Commission
