Re: Transportation Commission's Endorsement of Recommended Project List for NVTA Transaction Plan Update with Qualification

Dear Mayor Silberberg and Members of City Council:

At its May 18, 2016 meeting, the Alexandria Transportation Commission reviewed a project submission list for TransAction, the region's Long Range Transportation Improvement Plan. The updated TransAction Plan will provide the Northern Virginia Transportation Authority (NVTA) a vision for regional transportation improvements. Per House Bill 2313, the NVTA will only be able to fund projects included in its final updated plan.

The Transportation Commission endorses the City's proposed project list with qualification (attachment 1). The Commission has directed staff to evaluate whether the Bradlee Transit Center should remain on its submission list. This direction is consistent with an ongoing evaluation that will determine whether or not this project should be maintained on the City's 2016 update to its own financially-unconstrained Transportation Long Range Plan (LRP). The Commission supports the inclusion of the seventeen other projects on the list.

The Commission appreciates your consideration of its input.

Sincerely,

J.J. King III  
Chair, Alexandria Transportation Commission

Attachment 1: Recommended TransAction Project List

cc: Alexandria Transportation Commission  
Mark Jinks, City Manager  
Yon Lambert, Director, T&ES  
Carrie Sanders, Acting Deputy Director, T&ES

**Attachment 1 – Alexandria’s TransAction Proposed Project List**

#	Project Name	Project Description	Project Facility	Start Point	End Point
1	South Van Dorn Street Improvements	South Van Dorn Street improvements to improve access between the Metrorail station and I-95	South Van Dorn Street	Van Dorn Metrorail station	I-95
2	Duke Street Transitway	Construct a four-mile segment of the high-capacity transitway on Duke Street within Alexandria, including widening Duke Street from Wheeler Ave. to Jordan St. with reversible center lane.	Duke Street	King St Metro	Fairfax County Line
3	DASH Transit Service Enhancements and Expansion	DASH Transit Service Enhancements, including new cross-town services and funding for additional buses to expand service on existing and new routes, circulators and trolleys within and between activity centers; expand bus storage facilities; transit stop improvements; upgrade to new and/or upgraded regional fare system including new fare collection technology; Provide transit service connection between Eisenhower Metrorail Station and King Street Metrorail Station; Provide transit service connection between Van Dorn Metrorail Station and the Landmark Mall vicinity; Provide east-west transit service between Braddock Rd Metrorail Station and Old Town / King St. Metrorail Station	Transit Service	Citywide
