## Mobility Priorities

Below are the "building blocks" of a transportation system that provides choice, convenience, and reliability. Unfortunately, we can't have everything we want – there's not enough space, money, or time. **What things do you think Alexandria should invest in the most?**

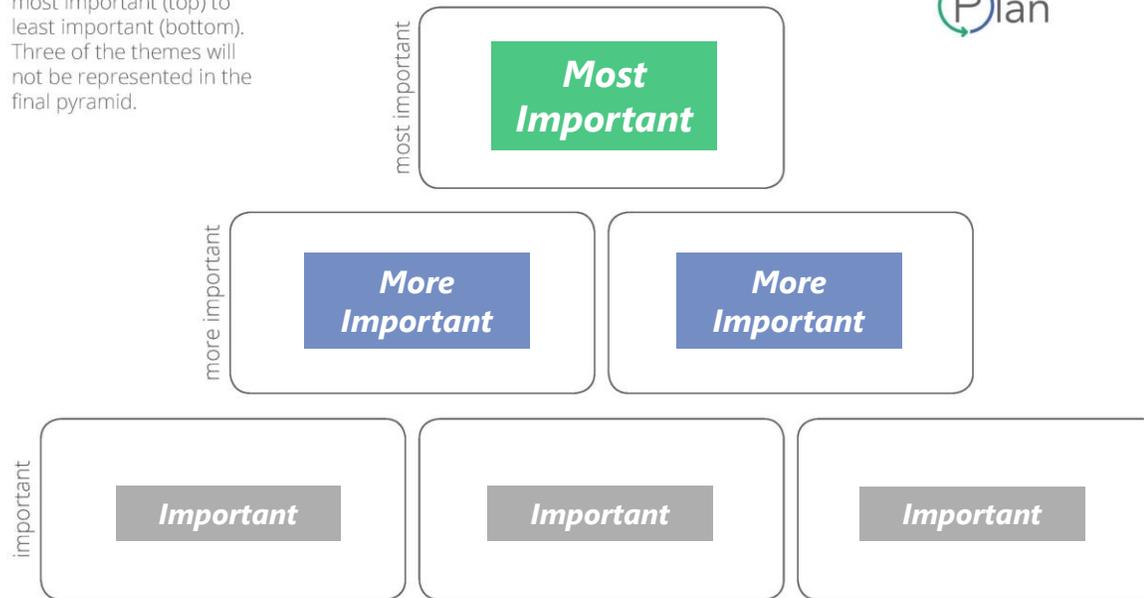

-  **Attractive and Active Streets** – Utilizing streets as public spaces to serve different functions—providing places to gather and to program activities.
-  **Curbside Management** – Allocating space to balance the needs of and limit conflicts between parked cars, delivery trucks, Uber/Lyft, taxis, bicycles, buses, and cars.
-  **Reliable and Efficient Transit Service**– Providing convenient, affordable, and reliable bus service throughout the day and on all days of the week. Improving access to rail stations and regional bus stops.
-  **Incentives and Information** – Make it easier and more attractive to choose alternatives to driving alone.
-  **Mobility on Demand** – Supporting shared mobility (e.g., Capital bikeshare, Zipcar, Uber/Lyft) with policies and infrastructure.
-  **Parking** – Increasing the physical inventory of on-street parking to taking action to manage the existing space better.
-  **Safe and Comfortable Places to Walk and Bike** – Allowing you to comfortably walk and bike everywhere in the city and improve accessibility for persons with disabilities.
-  **Maintaining our Infrastructure** – Keeping streetlights and traffic signals working, filling potholes, repaving streets, maintaining sidewalks, removing snow, and replacing aging bus fleet.
-  **Traffic Management** – Using technology to make travel in Alexandria safer and more efficient to get around.

Please choose your **top six building block stickers and place them on your sheet** in order of importance, from most important (top) to least important (bottom). Three of the themes will not be represented in the final pyramid.

# Key Takeaways

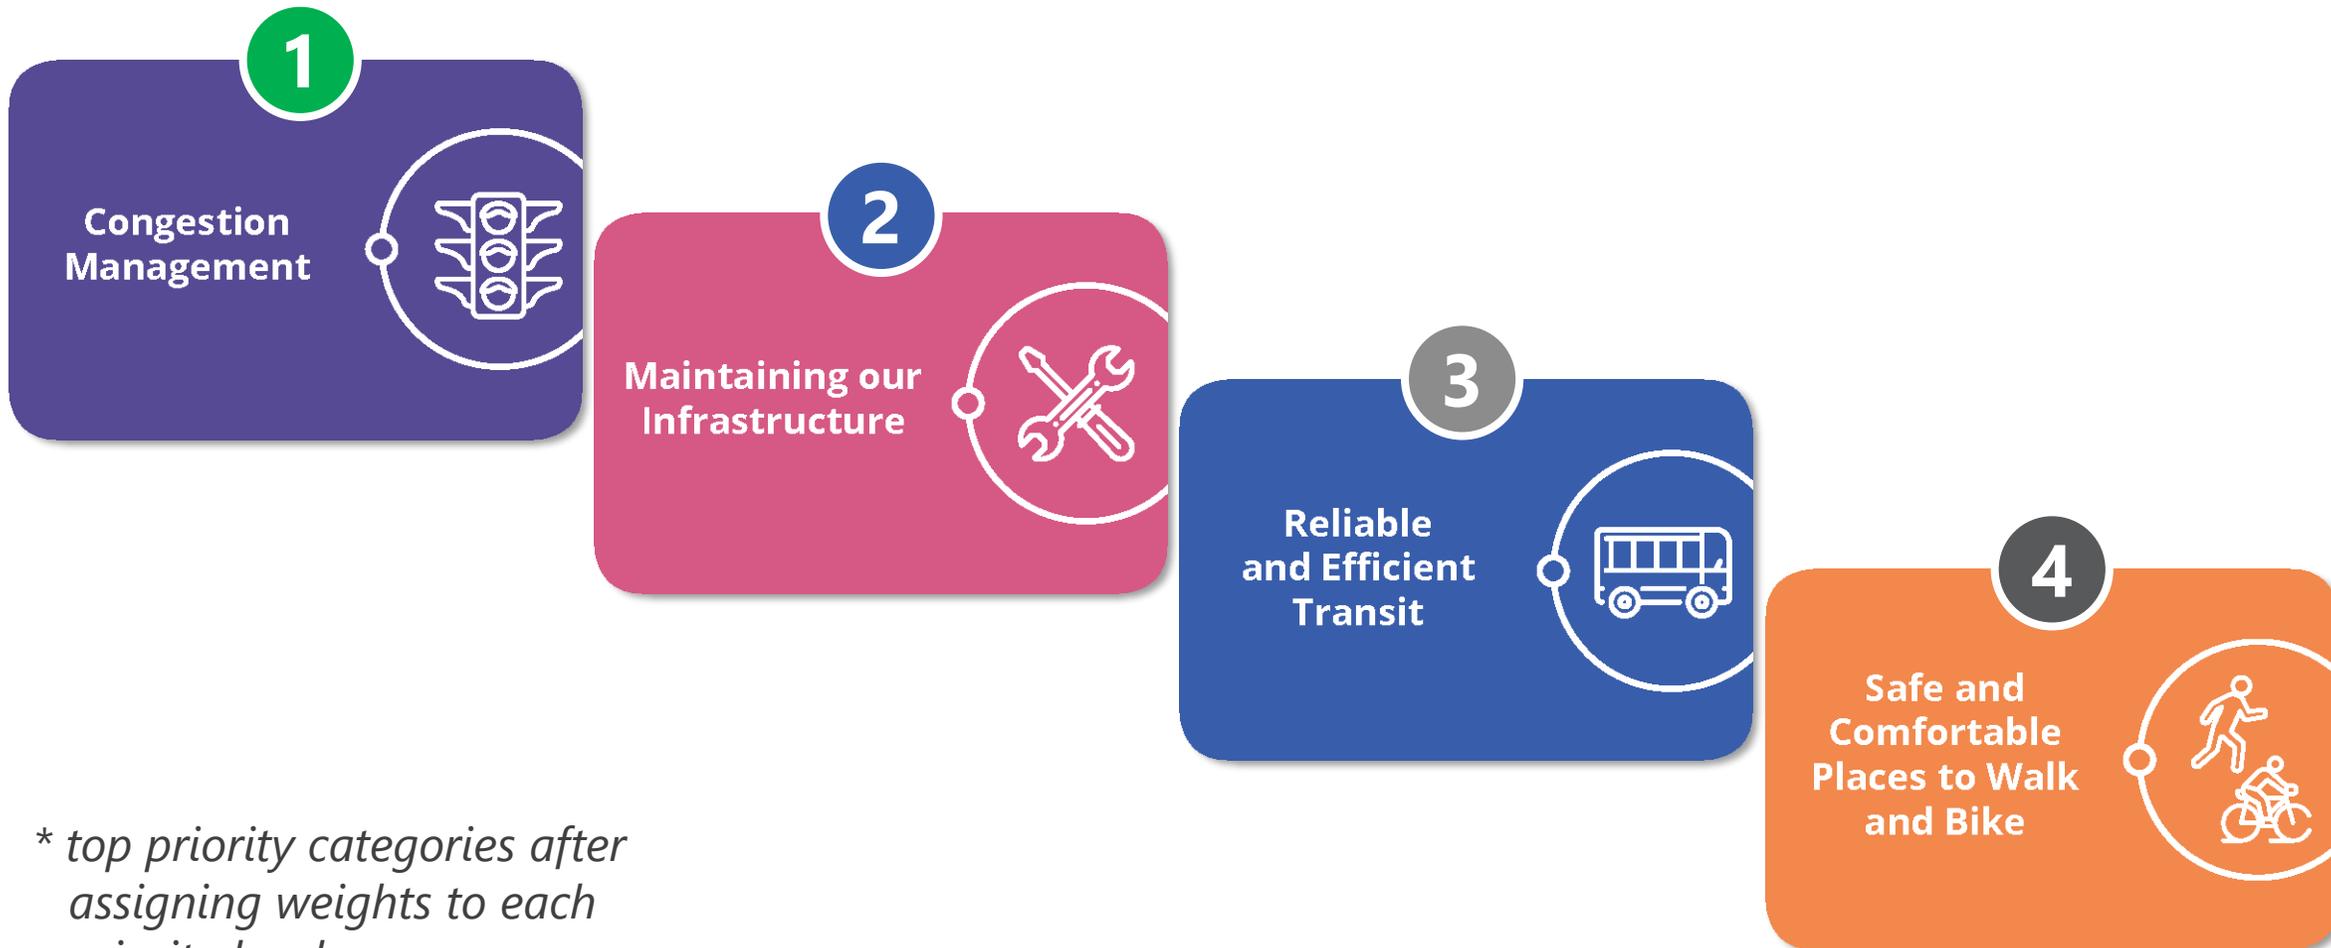

- Equal competing values between **multimodal transportation** and **traffic/maintenance**
- Linked priorities
  - Of those that chose "**Safe and Comfortable Places to Walk and Bike**" as their most important priority:
    - "**Reliable and Efficient Transit**" was the most frequently chosen priority in their more important row. The inverse is also true.
  - Of those that chose "**Congestion Management**" as their most important priority:
    - "**Maintaining our Infrastructure**" was the most frequently chosen priority in their more important row. The inverse is also true.

# Top Comments by Location (In-Person)

## Old Town Farmers Market

- Old Town area revolves around walking
- Requests for weekend bus service from Old Town to Mount Vernon
- Transit service at later hours

## West End Farmers Market

- The need to keep Alexandria a walking community
- Several requests for more bike lanes/mention of bike lanes ending abruptly
- Congestion has been getting worse

## Arlandria Community Meeting

- The city does a lot of talking about walking, but “does not do much to support walking”
- Importance of public transit in this community
- Complaints of slow-moving buses

## YMCA

- Safety and walkability are strong values in this community
- Concerns about infrastructure failure
- Metrorail access

# Top Comments by Location (In-Person)

## TC Williams High School

- Concerns about bus routes and frequency
- Equitable design
- More street lights

## Global Foods

- More transit access

## 24 Hour Laundromat

- Crime and safety concerns on the streets – need for more street lights
- Free parking
- Bus service improvement during non-peak hours
- Fix potholes

# Top Comments (Online)

## Online

- Congestion concerns – often centered around Seminary Road
- Environmental and sustainability concerns
- Better transit around Alexandria
