

# Attachment F

## MONTHLY SUBMITTAL BY MIRANT TO USEPA/ VADEQ

- **Each submittal typically includes the following:**

### Attachment A

- AERMOD predicted day-ahead weather forecast modeling results
- AERMOD predicted follow-up modeling results performed by ENSR using observed weather conditions
- Real-time monitoring results from the continuous SO<sub>2</sub> monitoring sites prescribed in the ACO

### Attachment B

- Hourly SO<sub>2</sub> and load output for each boiler/generator
- Six-minute average opacity for each boiler

Report elaborates on incidents of high opacity (>20%) as well as of exceeded modeled SO<sub>2</sub> concentrations and explanations

- **Mirant provides the City with a copy of this report**
