Virginia Department of Environmental Quality:
Order by Consent Issued to Mirant Potomac River, LLC

Dear Mr. Dowd,

This letter constitutes the May 26, 2006 update from Mirant Potomac River, LLC ("Mirant") of activities undertaken during the period of May 19 – May 26, 2006 in furtherance of our efforts to eliminate and prevent the modeled National Ambient Air Quality Standards ("NAAQS") exceedances described in the modeling analysis filed with the Department of Environmental Quality (DEQ) on August 19, 2005.

From May 19, 2006 through May 21, 2006, units 2 and 4 were available for operation and operated when dispatched by PJM with trona injection and subject to the daily 24 hour SO₂ emission rate cap and the hours-of-operation constraints set forth in Supplement 4 to the Operating Plan submitted to the United States Department of Energy ("DOE") on December 30, 2005 (the "Operating Plan"), in compliance with DOE Order No. EO-05-01 issued on December 20, 2005. From May 22 through May 24, units 3 and 4 were available for operation and operated when dispatched by PJM with trona injection and subject to the daily 24 hour SO₂ emission rate cap and the hours-of-operation constraints set forth in Supplement 5 to the Operating Plan. From May 25 through May 26, units 1 and 3 were available for operation and operated when dispatched by PJM with trona injection and subject to the daily 24 hour SO₂ emission rate cap and the hours-of-operation constraints set forth in Supplement 4 to the Operating Plan. On May 25, the unit 1 trona silo system was placed in-service and made operational.

Thank you for your attention to these matters. Please let us know if you need any further information.

Sincerely,
Mirant Potomac River, LLC

Hula Edmonds
