# Night Paving On Eisenhower Ave

TO: All businesses and residents

**The City of Alexandria plans to mill and re-pave at night the 3500 to 5700 Eisenhower Ave, that's the Asphalt portion from Bluestone Rd to S Van Dorn St including all lanes. The duration of this project will be from, August 21 2014 thru Sept 3, 2014 from 8:00 pm to 5:00 am, weather permitting.** While it is our intent to complete the work on the days indicated, weather or equipment problems may cause delays, in which case the project will be completed as soon as possible thereafter. Please be aware of the following during this project:

1. No vehicles may be parked on the affected streets for the duration of the project. Temporary No Parking signs will be posted prior to any construction activity. In the event of delays, temporary signs will be adjusted accordingly.
2. Traffic in the immediate and surrounding area may need to be re-directed. Please observe traffic detours and other traffic signs.
3. Construction crews have been instructed to minimize impact to overhanging tree branches. Our City Arborist will be monitoring the situation and some minimal removal of low-hanging limbs may be required.
4. City T&ES staff will be on the scene for the duration of the project.
5. Streets will be re-stripped as soon as practical following resurfacing.

For more information about the City's paving program, visit <http://alexandriava.gov/tes/> and click on the Maintenance Division quick link.

You may direct questions or concerns to our call.click.connect staff at 703.746.4357.

We apologize in advance for any inconvenience you may experience during this project and the City appreciates your patience and support.
