Subject Re: Meeting with DEQ 

The meeting was productive. The participants outlined for further discussion procedures for a collaborative engineering review leading to the installation of baghouses and other controls for PM 2.5 emissions from the plant. The hope is that the process will result in a draft permit for approval by the Air Board, which includes pollution control technology and limits that the Board, DEQ, City and Mirant can support.

Please let me know if you have any questions at this time.

Subject Meeting with DEQ

Honorable Mayor, Members of the City Council and MCMG Members:

The purpose of this email is to provide you a heads up -- Per discussions with the City Attorney and William Skrabak, the City staff and City Attorney are meeting with Dave Paylor, Director VDEQ and Bruce Buckheit (Air Board) on Friday after their meeting with Mirant to discuss pending issues with respect to Mirant facility and the possibility of having direct discussions with Mirant to resolve our concerns re: stack merge, PM2.5, etc. It could be a very short meeting or one that leads to further discussions.

If you have any questions, please feel free to contact me. Thanks.

Lalit Sharma, P.E.
