Night Paving at Intersection of King & Beauregard Streets

TO: All businesses and residents

The City of Alexandria plans to mill and pave the intersection **King St. & Beauregard St.** This work is being done to address the failed condition of the roadway. Although an intersection redesign project is underway, we have determined that the condition of the existing pavement warrants immediate attention. The duration of this project will be from **July 26, 2015 to July 31, 2015, 8:00pm to 5:00am** excluding weekends, weather permitting. While it is our intent to complete the work on the days indicated, weather or equipment problems may cause delays, in which case the project will be completed as soon as possible thereafter. Please be aware of the following during this project:

1. No vehicles may be parked on the affected streets for the duration of the project. Temporary No Parking signs will be posted prior to any construction activity. In the event of delays, temporary signs will be adjusted accordingly.
2. Traffic in the immediate and surrounding area may need to be re-directed. Please observe traffic detours and other traffic signs.
3. Construction crews have been instructed to minimize impact to overhanging tree branches. Our City Arborist will be monitoring the situation and some minimal removal of low-hanging limbs may be required.
4. City T&ES staff will be on the scene for the duration of the project.
5. Streets will be re-striped as soon as practical following resurfacing.

For more information about the City's paving program, visit www.alexandriava.gov/publicworks

You may direct questions or concerns to our call.click.connect staff at 703.746.4357.

We apologize in advance for any inconvenience you may experience during this project and the City appreciates your patience and support.
