Paving of Wheeler Avenue

TO: All businesses and residents

The City of Alexandria plans to mill and repave all lanes of Wheeler Avenue from Duke St. to the dead end. Because of unforeseeable circumstances the project had sustained delays and we sincerely apologize for the inconvenience. We have now rescheduled this project to begin the morning of Saturday, **August 29 to end on September 10, 2015. Although the work will start Saturday from 8:00am until 8:00pm, our crews will return on Sunday night and work from 8:00pm to 5:00am. The bulk of the work on this project will occur during nights, weather and equipment conditions permitting.** As in the past, we will make every attempt to keep you informed via email and/or notices such as this.

Once this project starts, please be aware of the following:

1. No vehicles may be parked on the affected streets for the duration of the project. Temporary No Parking signs will be posted prior to any construction activity. In the event of delays, temporary signs will be adjusted accordingly.
2. Traffic in the immediate and surrounding area may need to be re-directed. Please observe traffic detours and other traffic signs.
3. Construction crews have been instructed to minimize impact to overhanging tree branches. Our City Arborist will be monitoring the situation and some minimal removal of low-hanging limbs may be required.
4. City T&ES staff will be on the scene for the duration of the project.
5. Streets will be re-stripped as soon as practical following resurfacing.
